NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (UNAUDITED)

1. GENERAL

CERTAIN DEFINITIONS

For convenience in this report, the terms "Company," "our," "us" or "we" may be used to refer to Huntsman Corporation and, unless the context otherwise requires, its subsidiaries and predecessors. In this report, "Huntsman International" refers to Huntsman International LLC (our 100% owned subsidiary) and, unless the context otherwise requires, its subsidiaries.

In this report, we may use, without definition, the common names of competitors or other industry participants. We may also use the common names or abbreviations for certain chemicals or products.

INTERIM FINANCIAL STATEMENTS

Our interim condensed consolidated financial statements (unaudited) and Huntsman International's interim condensed consolidated financial statements (unaudited) were prepared in accordance with accounting principles generally accepted in the United States of America ("GAAP" or "U.S. GAAP") and in management's opinion reflect all adjustments, consisting only of normal recurring adjustments, necessary for a fair presentation of results of operations, comprehensive income, financial position and cash flows for the periods presented. Results for interim periods are not necessarily indicative of those to be expected for the full year. These condensed consolidated financial statements (unaudited) should be read in conjunction with the audited consolidated financial statements and notes to consolidated financial statements included in the Annual Report on Form 10-K for the year ended December 31, 2014 for our Company and Huntsman International.

DESCRIPTION OF BUSINESS

We are a global manufacturer of differentiated organic chemical products and of inorganic chemical products. Our products comprise a broad range of chemicals and formulations, which we market globally to a diversified group of consumer and industrial customers. Our products are used in a wide range of applications, including those in the adhesives, aerospace, automotive, construction products, personal care and hygiene, durable and non-durable consumer products, electronics, medical, packaging, paints and coatings, power generation, refining, synthetic fiber, textile chemicals and dye industries. We are a leading global producer in many of our key product lines, including MDI, amines, surfactants, maleic anhydride, epoxy-based polymer formulations, textile chemicals, dyes, titanium dioxide and color pigments.

We operate in five segments: Polyurethanes, Performance Products, Advanced Materials, Textile Effects and Pigments and Additives. Our Polyurethanes, Performance Products, Advanced Materials and Textile Effects segments produce differentiated organic chemical products and our Pigments and Additives segment produces inorganic chemical products. In a series of transactions beginning in 2006, we sold or shutdown substantially all of our Australian styrenics operations and our North American polymers and base chemicals operations. We report the results of these businesses as discontinued operations.

COMPANY

Our Company, a Delaware corporation, was formed in 2004 to hold the Huntsman businesses. Jon M. Huntsman founded the predecessor to our Company in 1970 as a small packaging company.

1. GENERAL (Continued)

Since then, we have grown through a series of acquisitions and now own a global portfolio of businesses.

Currently, we operate all of our businesses through Huntsman International, our 100% owned subsidiary. Huntsman International is a Delaware limited liability company and was formed in 1999.

HUNTSMAN CORPORATION AND HUNTSMAN INTERNATIONAL FINANCIAL STATEMENTS

Except where otherwise indicated, these notes relate to the condensed consolidated financial statements (unaudited) for both our Company and Huntsman International. The differences between our financial statements and Huntsman International's financial statements relate primarily to the following:

- purchase accounting recorded at our Company for the 2003 step-acquisition of Huntsman International Holdings LLC, the former parent company of Huntsman International that was merged into Huntsman International in 2005;
- the different capital structures; and
- a note payable from Huntsman International to us.

PRINCIPLES OF CONSOLIDATION

Our condensed consolidated financial statements (unaudited) include the accounts of our wholly-owned and majority-owned subsidiaries and any variable interest entities for which we are the primary beneficiary. Intercompany accounts and transactions have been eliminated.

USE OF ESTIMATES

The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

RECENT DEVELOPMENTS

Debt Issuance

On March 31, 2015, Huntsman International completed a €300 million (approximately \$326 million) offering of 4.25% senior notes due April 1, 2025 ("2025 Senior Notes"). On April 17, 2015, Huntsman International used the net proceeds of this offering to redeem \$289 million (\$294 carrying value) of our 8.625% senior subordinated notes due 2021 ("2021 Senior Subordinated Notes"). For more information, see "Note 7. Debt—Direct and Subsidiary Debt—Redemption of Notes and Loss on Early Extinguishment of Debt." In connection with this redemption, Huntsman International incurred a \$20 million loss on early extinguishment of debt in the second quarter of 2015. As of March 31, 2015, \$294 million was classified as current portion of debt on our condensed consolidated balance sheets (unaudited).

Pigments and Additives Restructurings

On February 12, 2015, we announced a plan to close the 'black end' manufacturing operations and ancillary activities at our Calais, France site, which will reduce our titanium dioxide capacity by approximately 100 kilotons, or 13% of our European titanium dioxide capacity. The 'black end' is responsible for the start of the titanium dioxide manufacturing process. The 'white end' is used to finish and pack titanium dioxide and will remain operational employing up to 100 people on the site. In connection with this announcement, we began to accelerate depreciation on the affected assets and recorded incremental accelerated depreciation in the first quarter of 2015 of \$28 million as restructuring, impairment and plant closing costs on our condensed consolidated statements of operations (unaudited). For more information, see "Note 6. Restructuring, Impairment and Plant Closing Costs."

On March 4, 2015, we announced plans to restructure our color pigments business, another step in our previously announced plan to significantly restructure our global Pigments and Additives segment. For more information, see "Note 6. Restructuring, Impairment and Plant Closing Costs."

2. RECENTLY ISSUED ACCOUNTING PRONOUNCEMENTS

Accounting Pronouncements Adopted During 2015

In April 2014, the Financial Accounting Standards Board ("FASB") issued Accounting Standards Update ("ASU") No. 2014-08, *Presentation of Financial Statements (Topic 205) and Property, Plant, and Equipment (Topic 360): Reporting Discontinued Operations and Disclosures of Disposals of Components of an Entity*, changing the criteria for reporting discontinued operations and enhancing reporting requirements for discontinued operations. A disposal of a component of an entity or a group of components of an entity will be required to be reported in discontinued operations if the disposal represents a strategic shift that has (or will have) a major effect on an entity's operations and financial results. Further, the amendments in this ASU will require an entity to present, for each comparative period, the assets and liabilities of a disposal group that includes a discontinued operation separately in the asset and liability sections, respectively, of the statement of financial position. The amendments in this ASU are effective prospectively for all disposals (or classifications as held for sale) of components of an entity that occur within annual periods beginning on or after December 15, 2014, and interim periods within those years, and for all businesses that, on acquisition, are classified as held for sale that occur within annual periods beginning on or after December 15, 2014, and interim periods within those years. We adopted the amendments in this ASU effective January 1, 2015, and the initial adoption of the amendments in this ASU did not have any impact on our condensed consolidated financial statements (unaudited).

Accounting Pronouncements Pending Adoption in Future Periods

In May 2014, the FASB issued ASU No. 2014-09, *Revenue from Contracts with Customers (Topic 606)*, outlining a single comprehensive model for entities to use in accounting for revenues arising from contracts with customers and supersedes most current revenue recognition guidance. The amendments in this ASU are effective for annual reporting periods beginning after December 15, 2016,

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (UNAUDITED) (Continued)

2. RECENTLY ISSUED ACCOUNTING PRONOUNCEMENTS (Continued)

including interim periods within that reporting period. The amendments in this ASU should be applied retrospectively, and early application is not permitted. We are currently evaluating the impact of the adoption of the amendments in this ASU on our condensed consolidated financial statements (unaudited).

In August 2014, the FASB issued ASU No. 2014-15, *Presentation of Financial Statements—Going Concern (Subtopic 205-40): Disclosure of Uncertainties about an Entity's Ability to Continue as a Going Concern*, providing guidance about management's responsibility to evaluate whether there is substantial doubt about an entity's ability to continue as a going concern and to provide related footnote disclosures. The amendments in this ASU are effective for the annual period ending after December 15, 2016, and for annual periods and interim periods thereafter. Early adoption is permitted. We do not expect the adoption of the amendments in this ASU to have a significant impact on our condensed consolidated financial statements (unaudited).

In January 2015, the FASB issued ASU No. 2015-01, *Income Statement—Extraordinary and Unusual Items (Subtopic 225-20): Simplifying Income Statement Presentation by Eliminating the Concept of Extraordinary Items*, eliminating from US GAAP the concept of extraordinary items. Reporting entities will no longer have to assess whether a particular event or transaction event is extraordinary. The amendments in this ASU are effective for fiscal years, and interim periods within those fiscal years, beginning after December 15, 2015. A reporting entity may apply the amendments prospectively or may also apply them retrospectively to all prior periods presented in the financial statements. Early adoption is permitted provided that the guidance is applied from the beginning of the fiscal year of adoption. We do not expect the adoption of the amendments in this ASU to have a significant impact on our condensed consolidated financial statements (unaudited).

In February 2015, the FASB issued ASU No. 2015-02, *Consolidation (Topic 810): Amendments to the Consolidation Analysis*. The amendments in this ASU change the analysis that a reporting entity must perform to determine whether it should consolidate certain types of legal entities by placing more emphasis on risk of loss when determining a controlling financial interest. These amendments affect areas specific to limited partnerships and similar legal entities, evaluating fees paid to a decision maker or service provider as a variable interest, the effects of both fee arrangements and related parties on the primary beneficiary determination and certain investment funds. The amendments in this ASU are effective for fiscal years, and interim periods within those fiscal years, beginning after December 15, 2015. A reporting entity may apply the amendments retrospectively or using a modified retrospective approach. Early adoption is permitted, including adoption in an interim period provided that any adjustments should be reflected as of the beginning of the fiscal year that includes that interim period. We do not expect the adoption of the amendments in this ASU to have a significant impact on our condensed consolidated financial statements (unaudited).

In April 2015, the FASB issued ASU No. 2015-03, *Interest—Imputation of Interest (Subtopic 835-30): Simplifying the Presentation of Debt Issuance Costs*. The amendments in this ASU require that debt issuance costs related to a recognized debt liability be presented in the balance sheet as a direct deduction from the carrying amount of that debt liability, consistent with debt discounts, and that amortization of debt issuance costs shall be reported as interest expense. The recognition and measurement guidance for debt issuance costs are not affected by the amendments in this ASU. The

amendments in this ASU are effective for fiscal years, and interim periods within those fiscal years, beginning after December 15, 2015, with early application permitted. Entities would apply the new guidance retrospectively to all prior periods. We do not expect the adoption of the amendment in this ASU to have a significant impact on our condensed consolidated financial statements (unaudited).

In April 2015, the FASB issued ASU No. 2015-05, *Intangibles—Goodwill and Other—Internal-Use Software (Subtopic 350-40): Customer's Accounting for Fees Paid in a Cloud Computing Arrangement*. The amendments in this ASU provide guidance that will help entities evaluate the accounting for fees paid by a customer in a cloud computing arrangement, including whether a cloud computing arrangement includes a software license. If a cloud computing arrangement includes a software license, then the customer should account for the software license consistent with the acquisition of other software licenses; otherwise, the customer should account for the arrangement as a service contract. The amendments in this ASU are effective for fiscal years, and interim periods within those fiscal years, beginning after December 15, 2015. Entities can elect to adopt the amendments either prospectively to all arrangements entered into after the effective date or retrospectively to all prior periods. We do not expect the adoption of the amendment in this ASU to have a significant impact on our condensed consolidated financial statements (unaudited).

3. BUSINESS COMBINATIONS

ROCKWOOD ACQUISITION

On October 1, 2014, we completed the acquisition of the Performance Additives and Titanium Dioxide businesses (the "Rockwood Acquisition") of Rockwood Holdings, Inc. ("Rockwood"). We paid \$1.04 billion in cash, subject to certain purchase price adjustments, and assumed certain unfunded pension liabilities in connection with the Rockwood Acquisition. The acquisition was financed using a bank term loan. The majority of the acquired businesses have been integrated into our Pigments and Additives segment. Transaction costs charged to expense related to this acquisition were nil and \$5 million for the three months ended March 31, 2015 and 2014, respectively, and were recorded in selling, general and administrative expenses in our condensed consolidated statements of operations (unaudited).

The following businesses were acquired from Rockwood:

- titanium dioxide, a white pigment derived from titanium bearing ores with strong specialty business in fibers, inks, pharmaceuticals, food and cosmetics;
- functional additives made from barium and zinc based inorganics used to make colors more brilliant, primarily in plastics, coatings, films, food, cosmetics, pharmaceuticals and paper;
- color pigments made from synthetic iron-oxide and other non-titanium dioxide inorganic pigments used by manufacturers of coatings and colorants;
- timber treatment wood protection chemicals used primarily in residential and commercial applications;

HUNTSMAN CORPORATION AND SUBSIDIARIES**HUNTSMAN INTERNATIONAL LLC AND SUBSIDIARIES****NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (UNAUDITED) (Continued)****3. BUSINESS COMBINATIONS (Continued)**

- water treatment products used to improve water purity in industrial, commercial and municipal applications; and
- specialty automotive molded components.

In connection with securing certain regulatory approvals required to complete the Rockwood Acquisition, we sold our TiO₂ TR52 product line used in printing inks to Henan Billions Chemicals Co., Ltd. ("Henan") in December 2014. The sale did not include any manufacturing assets but does include an agreement to supply TR52 product to Henan during a transitional period.

We have accounted for the Rockwood Acquisition using the acquisition method. As such, we analyzed the fair value of tangible and intangible assets acquired and liabilities assumed. The preliminary allocation of acquisition cost to the assets acquired and liabilities assumed is summarized as follows (dollars in millions):

Cash paid for Rockwood Acquisition	\$ 1,038
Expected purchase price adjustment receivable	(25)
Expected net acquisition cost	<u>\$ 1,013</u>
Fair value of assets acquired and liabilities assumed:	
Cash	\$ 78
Accounts receivable, net	220
Inventories	400
Prepaid expenses and other current assets	46
Property, plant and equipment	591
Intangible assets	33
Deferred income taxes, non-current	126
Other assets	9
Accounts payable	(146)
Accrued expenses and other current liabilities	(80)
Long-term debt, non-current	(3)
Pension and related liabilities	(233)
Deferred income taxes, non-current	(10)
Other liabilities	(18)
Total fair value of net assets acquired	<u>\$ 1,013</u>

The acquisition cost allocation is preliminary pending final determination of the fair value of assets acquired and liabilities assumed, including final valuation of property, plant and equipment, intangible assets, asset retirement obligations, and environmental and other legal reserves, and finalizing the expected purchase price adjustment receivable. None of the fair value of this acquisition was allocated to goodwill. It is possible that changes to this allocation could occur. If the Rockwood Acquisition were to have occurred on January 1, 2013, the following estimated pro forma revenues and net income

4. INVENTORIES

Inventories are stated at the lower of cost or market, with cost determined using last-in first-out ("LIFO"), first-in first-out, and average costs methods for different components of inventory. Inventories consisted of the following (dollars in millions):

	<u>March 31,</u> <u>2015</u>	<u>December 31,</u> <u>2014</u>
Raw materials and supplies	\$ 458	\$ 508

For both March 31, 2015 and December 31, 2014, approximately 9% of inventories were recorded using the LIFO cost method.

5. VARIABLE INTEREST ENTITIES

We evaluate our investments and transactions to identify variable interest entities for which we are the primary beneficiary. We hold a variable interest in the following joint ventures for which we are the primary beneficiary:

- Rubicon LLC manufactures products for our Polyurethanes and Performance Products segments. The structure of the joint venture is such that the total equity investment at risk is not sufficient to permit the joint venture to finance its activities without additional financial support. By virtue of the operating agreement with this joint venture, we purchase a majority of the output, absorb a majority of the operating costs and provide a majority of the additional funding.
- Pacific Iron Products Sdn Bhd manufactures products for our Pigments and Additives segment. In this joint venture we supply all the raw materials through a fixed cost supply contract, operate the manufacturing facility and market the products of the joint venture to customers. Through a fixed price raw materials supply contract with the joint venture we are exposed to the risk related to the fluctuation of raw material pricing.
- Arabian Amines Company manufactures products for our Performance Products segment. As required in the operating agreement governing this joint venture, we purchase all of Arabian Amines Company's production and sell it to our customers. Substantially all of the joint venture's activities are conducted on our behalf.
- Sasol-Huntsman is our 50%-owned joint venture with Sasol that owns and operates a maleic anhydride facility in Moers, Germany. This joint venture manufactures products for our Performance Products segment. The joint venture uses our technology and expertise, and we bear a disproportionate amount of risk of loss due to a related-party loan to Sasol-Huntsman for which we bear the default risk.
- Viance, LLC ("Viance") is our 50%-owned joint venture with Dow Chemical. Viance markets timber treatment products for our Pigments and Additives segment. Our joint venture interest in Viance was acquired as part of the Rockwood Acquisition. The joint venture sources all of its products through a contract manufacturing arrangement at our Harrisburg, North Carolina facility, and we bear a disproportionate amount of working capital risk of loss due to the supply arrangement whereby we control manufacturing on Viance's behalf. As a result, we concluded that we are the primary beneficiary and began consolidating Viance upon the Rockwood Acquisition on October 1, 2014.

Creditors of these entities have no recourse to our general credit. See "Note 7. Debt—Direct and Subsidiary Debt." As the primary beneficiary of these variable interest entities at March 31, 2015, the joint ventures' assets, liabilities and results of operations are included in our condensed consolidated financial statements (unaudited).

2015 RESTRUCTURING ACTIVITIES

On December 1, 2014, we announced that we are taking significant action to improve the global competitiveness of our Pigments and Additives segment. As part of a comprehensive restructuring program, we plan to reduce our workforce by approximately 900 positions. In connection with this restructuring program, we recorded restructuring expense of \$34 million in the three months ended March 31, 2015 related primarily to workforce reductions. We expect to complete this program by the middle of 2016.

On February 12, 2015, we announced a plan to close the 'black end' manufacturing operations and ancillary activities at our Calais, France site, which will reduce our titanium dioxide capacity by approximately 100 kilotons, or 13% of our European titanium dioxide capacity. In connection with this announcement, we began to accelerate depreciation on the affected assets and recorded incremental accelerated depreciation in the three months ended March 31, 2015 of \$28 million as restructuring, impairment and plant closing costs. In addition, we recorded restructuring expense of \$22 million in the three months ended March 31, 2015 related primarily to workforce reductions. We expect to complete this program by the end of 2016.

On March 4, 2015, we announced plans to restructure our color pigments business, another step in our previously announced plan to significantly restructure our global Pigments and Additives segment, and recorded restructuring expense of approximately \$1 million in the three months ended March 31, 2015 related to workforce reductions. We expect to complete this program by the end of 2015.

2014 RESTRUCTURING ACTIVITIES

During 2013, our Performance Products segment initiated a restructuring program to refocus our surfactants business in Europe. During the three months ended March 31, 2014, we recorded charges of \$23 million primarily related to workforce reductions and a charge of \$1 million for the impairment of long-lived assets relating to the announced agreement to purchase our Lavera, France manufacturing facility by Wilmar Europe Holdings B.V.

During the three months ended March 31, 2014, our Advanced Materials segment recorded charges of \$7 million primarily related to workforce reductions related to our global transformational change program designed to improve the segment's manufacturing efficiencies, enhance commercial excellence and improve its long-term global competitiveness. Our Advanced Materials segment also reversed charges of \$3 million related to this initiative.

On September 27, 2011, we announced plans to implement a significant restructuring of our Textile Effects segment, including the closure of our production facilities and business support offices in Basel, Switzerland, as part of an ongoing strategic program aimed at improving the Textile Effects segment's long-term global competitiveness. In connection with this plan, during the three months ended March 31, 2014, our Textile Effects segment recorded charges of \$2 million for long-term contract termination costs and \$2 million for decommissioning associated with this initiative. Additionally, we recorded charges of \$2 million for long-term contract termination costs for other initiatives.

During the three months ended March 31, 2014, our Pigments and Additives segment recorded charges of \$3 million primarily related to the workforce reductions at our Huelva, Spain facility.

DIRECT AND SUBSIDIARY DEBT

Huntsman Corporation's direct debt and guarantee obligations consist of a guarantee of certain indebtedness incurred from time to time to finance certain insurance premiums. Substantially all of our other debt, including the facilities described below, has been incurred by our subsidiaries (primarily Huntsman International). Huntsman Corporation is not a guarantor of such subsidiary debt.

Certain of our subsidiaries are designated as nonguarantor subsidiaries and have third-party debt agreements. These debt agreements contain certain restrictions with regard to dividends, distributions, loans or advances. In certain circumstances, the consent of a third party would be required prior to the transfer of any cash or assets from these subsidiaries to us.

Senior Credit Facilities

As of March 31, 2015, our senior credit facilities ("Senior Credit Facilities") consisted of our revolving credit facility ("Revolving Facility"), our extended term loan B facility ("Extended Term Loan B"), our extended term loan B facility—series 2 ("Extended Term Loan B—Series 2"), our 2014

Term Loan C	NA	50	49	USD LIBOR plus 2.25%	2016

- (1) We had no borrowings outstanding under our Revolving Facility; we had approximately \$15 million (U.S. dollar equivalents) of letters of credit and bank guarantees issued and outstanding under our Revolving Facility.
- (2) The 2014 New Term Loan is subject to a 0.75% LIBOR floor.
- (3) The applicable interest rate of the Senior Credit Facilities is subject to certain secured leverage ratio thresholds. As of March 31, 2015, the weighted average interest rate on our outstanding balances under the Senior Credit Facilities was approximately 3.0%.

Our obligations under the Senior Credit Facilities are guaranteed by substantially all of our domestic subsidiaries and certain of our foreign subsidiaries (collectively, the "Guarantors"), and are secured by a first priority lien on substantially all of our domestic property, plant and equipment, the stock of all of our material domestic subsidiaries and certain foreign subsidiaries, and pledges of intercompany notes between certain of our subsidiaries.

A/R Programs

Our U.S. accounts receivable securitization program ("U.S. A/R Program") and our European accounts receivable securitization program ("EU A/R Program" and collectively with the U.S. A/R Program, "A/R Programs") are structured so that we transfer certain of our trade receivables to the U.S. special purpose entity ("U.S. SPE") and the European special purpose entity ("EU SPE") in transactions intended to be true sales or true contributions. The receivables collateralize debt incurred

by the U.S. SPE and the EU SPE. Information regarding our A/R Programs as of March 31, 2015 was as follows (monetary amounts in millions):

U.S. A/R Program	March 2018	\$250	\$90(4)	Applicable rate plus 0.95%
EU A/R Program	March 2018	€225 (approximately \$245)	€114 (approximately \$124)	Applicable rate plus 1.10%

- (1) The amount of actual availability under our A/R Programs may be lower based on the level of eligible receivables sold, changes in the credit ratings of our customers, customer concentration levels and certain characteristics of the accounts receivable being transferred, as defined in the applicable agreements.
- (2) Each interest rate is defined in the applicable agreements. In addition, the U.S. SPE and the EU SPE are obligated to pay unused commitment fees to the lenders based on the amount of each lender's commitment.
- (3) Applicable rate for our U.S. A/R Program is defined by the lender as either USD LIBOR or CP rate. Applicable rate for our EU A/R Program is either GBP LIBOR, USD LIBOR or EURIBOR.
- (4) As of March 31, 2015, we had approximately \$7 million (U.S. dollar equivalents) of letters of credit issued and outstanding under our U.S. A/R Program.
- (5) During the three months ended March 31, 2015, we entered into amendments to our A/R Programs that, among other things, extend the scheduled commitment termination dates and reduce the applicable borrowing margins.

As of March 31, 2015 and December 31, 2014, \$454 million and \$472 million, respectively, of accounts receivable were pledged as collateral under our A/R Programs.

Notes

As of March 31, 2015, we had outstanding the following notes (monetary amounts in millions):

On March 31, 2015, Huntsman International issued €300 million (approximately \$326 million) aggregate principal amount of 2025 Senior Notes. Huntsman International applied the net proceeds of this offering to redeem \$289 million of its 2021 Senior Subordinated Notes in April 2015.

The 2025 Senior Notes bear interest at 4.25% per year, payable semi-annually on April 1 and October 1, and are due on April 1, 2025. Huntsman International may redeem the 2025 Senior Notes in whole or in part at any time prior to January 1, 2025 at a price equal to 100% of the principal amount thereof plus a "make-whole" premium and accrued and unpaid interest.

The 2020, 2021, 2022 and 2025 Senior Notes are general unsecured senior obligations of Huntsman International and are guaranteed on a general unsecured senior basis by the Guarantors. The indentures impose certain limitations on the ability of Huntsman International and its subsidiaries to, among other things, incur additional indebtedness secured by any principal properties, incur indebtedness of nonguarantor subsidiaries, enter into sale and leaseback transactions with respect to any principal properties and consolidate or merge with or into any other person or lease, sell or transfer all or substantially all of its properties and assets. Upon the occurrence of certain change of control events, holders of the 2020, 2021, 2022 and 2025 Senior Notes will have the right to require that Huntsman International purchase all or a portion of such holder's notes in cash at a purchase price equal to 101% of the principal amount thereof plus accrued and unpaid interest to the date of repurchase.

Redemption of Notes and Loss on Early Extinguishment of Debt

During the three months ended March 31, 2015, we redeemed or repurchased the following notes (monetary amounts in millions):

<u>Date of Redemption</u>	<u>Notes</u>	<u>Principal Amount of Notes Redeemed</u>	<u>Amount Paid (Excluding Accrued Interest)</u>	<u>Loss on Early Extinguishment of Debt</u>
January 2015	2021 Senior Subordinated Notes	\$ 37	\$ 40	\$ 3

In connection with the redemption of our 2021 Senior Subordinated Notes in April 2015, Huntsman International incurred a \$20 million loss on early extinguishment of debt in the second quarter of 2015. As of March 31, 2015, \$294 million was classified as current portion of debt on our condensed consolidated balance sheets (unaudited).

Variable Interest Entity Debt

As of March 31, 2015, Arabian Amines Company had \$156 million outstanding under its loan commitments and debt financing arrangements. Arabian Amines Company, our consolidated 50%-owned joint venture, is currently not in compliance with payment and other obligations under these loan commitments. We do not guarantee these loan commitments and Arabian Amines Company is not a guarantor of any of our other debt obligations, and the noncompliance with these financial covenants does not affect any of our other debt obligations. On April 29, 2015, Arabian Amines Company obtained a waiver of certain financial covenants from the lender. We are analyzing the impact of this waiver on the balance sheet classification of these loan commitments. As of March 31, 2015, the amounts outstanding under these loan commitments were classified as current on our condensed consolidated balance sheets (unaudited).

Note Payable from Huntsman International to Huntsman Corporation

As of March 31, 2015, we have a loan of \$700 million to our subsidiary, Huntsman International (the "Intercompany Note"). The Intercompany Note is unsecured and \$100 million of the outstanding amount is classified as current as of March 31, 2015 on our condensed consolidated balance sheets (unaudited). As of March 31, 2015, under the terms of the Intercompany Note, Huntsman International promises to pay us interest on the unpaid principal amount at a rate per annum based on the previous monthly average borrowing rate obtained under our U.S. A/R Program, less 10 basis points (provided that the rate shall not exceed an amount that is 25 basis points less than the monthly average borrowing rate obtained for the U.S. LIBOR-based borrowings under our Revolving Facility).

COMPLIANCE WITH COVENANTS

We believe that we are in compliance with the covenants contained in the agreements governing our material debt instruments, including our Senior Credit Facilities, our U.S. A/R program and our EU A/R Program and our notes. However, Arabian Amines Company, our consolidated 50%-owned joint venture, is currently not in compliance with certain financial covenants contained under its loan commitments. See "—Variable Interest Entity Debt" above.

Our material financing arrangements contain certain covenants with which we must comply. A failure to comply with a covenant could result in a default under a financing arrangement unless we obtained an appropriate waiver or forbearance (as to which we can provide no assurance). A default under these material financing arrangements generally allows debt holders the option to declare the underlying debt obligations immediately due and payable. Furthermore, certain of our material financing arrangements contain cross-default and cross-acceleration provisions under which a failure to comply with the covenants in one financing arrangement may result in an event of default under another financing arrangement.

Our Senior Credit Facilities are subject to a single financial covenant (the "Leverage Covenant") which applies only to the Revolving Facility and is calculated at the Huntsman International level. The Leverage Covenant is applicable only if borrowings, letters of credit or guarantees are outstanding under the Revolving Facility (cash collateralized letters of credit or guarantees are not deemed outstanding). The Leverage Covenant is a net senior secured leverage ratio covenant which requires that Huntsman International's ratio of senior secured debt to EBITDA (as defined in the applicable agreement) is not more than 3.75 to 1.

If in the future Huntsman International fails to comply with the Leverage Covenant, then we may not have access to liquidity under our Revolving Facility. If Huntsman International failed to comply with the Leverage Covenant at a time when we had uncollateralized loans or letters of credit outstanding under the Revolving Facility, Huntsman International would be in default under the Senior Credit Facilities, and, unless Huntsman International obtained a waiver or forbearance with respect to such default (as to which we can provide no assurance), Huntsman International could be required to pay off the balance of the Senior Credit Facilities in full, and we may not have further access to such facilities.

7. DEBT (Continued)

The agreements governing our A/R Programs also contain certain receivable performance metrics. Any material failure to meet the applicable A/R Programs' metrics in the future could lead to an early termination event under the A/R Programs, which could require us to cease our use of such facilities, prohibiting us from additional borrowings against our receivables or, at the discretion of the lenders, requiring that we repay the A/R Programs in full. An early termination event under the A/R Programs would also constitute an event of default under our Senior Credit Facilities, which could require us to pay off the balance of the Senior Credit Facilities in full and could result in the loss of our Senior Credit Facilities.

8. DERIVATIVE INSTRUMENTS AND HEDGING ACTIVITIES

We are exposed to market risks, such as changes in interest rates, foreign exchange rates and commodity pricing risks. From time to time, we enter into transactions, including transactions involving derivative instruments, to manage certain of these exposures.

All derivatives, whether designated in hedging relationships or not, are recorded on our balance sheet at fair value. If the derivative is designated as a fair value hedge, the changes in the fair value of the derivative and the hedged items are recognized in earnings. If the derivative is designated as a cash flow hedge, changes in the fair value of the derivative are recorded in accumulated other comprehensive loss, to the extent effective, and will be recognized in the income statement when the hedged item affects earnings. To the extent applicable, we perform effectiveness assessments in order to use hedge accounting at each reporting period. For a derivative that does not qualify as a hedge, changes in fair value are recognized in earnings.

We also hedge our net investment in certain European operations. Changes in the fair value of the hedge in the net investment of certain European operations are recorded in accumulated other comprehensive loss.

Our cash flows and earnings are subject to fluctuations due to exchange rate variation. Our revenues and expenses are denominated in various foreign currencies. From time to time, we may enter into foreign currency derivative instruments to minimize the short-term impact of movements in foreign currency rates. Where practicable, we generally net multicurrency cash balances among our subsidiaries to help reduce exposure to foreign currency exchange rates. Certain other exposures may be managed from time to time through financial market transactions, principally through the purchase of spot or forward foreign exchange contracts (generally with maturities of one year or less). We do not hedge our foreign currency exposures in a manner that would eliminate the effect of changes in exchange rates on our cash flows and earnings. As of March 31, 2015, we had approximately \$245 million in notional amount (in U.S. dollar equivalents) outstanding in forward foreign currency contracts.

Huntsman International has entered into several interest rate contracts to hedge the variability caused by monthly changes in cash flow due to associated changes in LIBOR under our Senior Credit

Facilities. These swaps are designated as cash flow hedges and the effective portion of the changes in the fair value of the swaps are recorded in other comprehensive (loss) income (dollars in millions):

Beginning in 2009, Arabian Amines Company entered into a 12-year floating to fixed interest rate contract providing for a receipt of LIBOR interest payments for a fixed payment of 5.02%. In connection with the consolidation of Arabian Amines Company as of July 1, 2010, the interest rate contract is now included in our consolidated results. See "Note 5. Variable Interest Entities." The notional amount of the swap as of March 31, 2015 was \$26 million, and the interest rate contract is not designated as a cash flow hedge. As of March 31, 2015, the fair value of the swap was \$3 million and was recorded as other current liabilities on our condensed consolidated balance sheets (unaudited). For the three months ended March 31, 2015, we recorded a reduction of interest expense of nil due to changes in fair value of the swap. As of March 31, 2015, Arabian Amines Company was not in compliance with certain financial covenants contained in its loan commitments. For more information, see "Note 7. Debt—Direct and Subsidiary Debt—Variable Interest Entity Debt."

In November 2014, we entered into two five year cross-currency interest rate contracts and one eight year cross-currency interest rate contract to swap an aggregate notional \$200 million for an aggregate notional €161 million. This swap is designated as a hedge of net investment for financial reporting purposes. Under the cross-currency interest rate contract, we will receive fixed USD payments of \$5 million semiannually on May 15 and November 15 (equivalent to an annual rate of 5.125%) and make interest payments of approximately €3 million (equivalent to an annual rate of approximately 3.6%). As of March 31, 2015, the fair value of this swap was \$33 million and was recorded in noncurrent assets.

On March 17, 2010, we entered into three five year cross-currency interest rate contracts to swap an aggregate notional \$350 million for an aggregate notional €255 million. This swap was designated as a hedge of net investment for financial reporting purposes. During the three months ended March 31, 2015, we terminated these cross-currency interest rate contracts and received \$66 million in payments from the counterparties.

We finance certain of our non-U.S. subsidiaries with intercompany loans that are, in many cases, denominated in currencies other than the entities' functional currency. We manage the net foreign currency exposure created by this debt through various means, including cross-currency swaps, the designation of certain intercompany loans as permanent loans because they are not expected to be repaid in the foreseeable future and the designation of certain debt and swaps as net investment hedges.

Foreign currency transaction gains and losses on intercompany loans that are not designated as permanent loans are recorded in earnings. Foreign currency transaction gains and losses on

intercompany loans that are designated as permanent loans are recorded in other comprehensive income. From time to time, we review such designation of intercompany loans.

We review our non-U.S. dollar denominated debt and derivative instruments to determine the appropriate amounts designated as hedges. As of March 31, 2015, we have designated approximately €331 million (approximately \$360 million) of euro-denominated debt and cross-currency interest rate contracts as a hedge of our net investment. For the three months ended March 31, 2015, the amount of gain recognized on the hedge of our net investment was \$75 million, and was recorded in other comprehensive (loss) income on our condensed consolidated statements of comprehensive (loss) income (unaudited). As of March 31, 2015, we had approximately €1,334 million (approximately \$1,451 million) in net euro assets.

Long-term debt (including current portion)	(5,358)	(5,412)	(5,200)	(5,210)

The carrying amounts reported in our condensed consolidated balance sheets (unaudited) of cash and cash equivalents, accounts receivable and accounts payable approximate fair value because of the immediate or short-term maturity of these financial instruments. The fair value of non-qualified employee benefit plan investments is obtained through market observable pricing using prevailing market prices. The estimated fair values of our long-term debt are based on quoted market prices for the identical liability when traded as an asset in an active market (Level 1).

The fair value estimates presented herein are based on pertinent information available to management as of March 31, 2015 and December 31, 2014. Although management is not aware of any factors that would significantly affect the estimated fair value amounts, such amounts have not been comprehensively revalued for purposes of these financial statements since March 31, 2015 and current estimates of fair value may differ significantly from the amounts presented herein.

10. EMPLOYEE BENEFIT PLANS (Continued)

During the three months ended March 31, 2015 and 2014, we made contributions to our pension and other postretirement benefit plans of \$33 million and \$28 million, respectively. During the remainder of 2015, we expect to contribute an additional amount of approximately \$66 million to these plans.

13. COMMITMENTS AND CONTINGENCIES

LEGAL MATTERS

Antitrust Matters

We were named as a defendant in consolidated class action civil antitrust suits filed on February 9 and 12, 2010 in the U.S. District Court for the District of Maryland alleging that we and our co-defendants and other alleged co-conspirators conspired to fix prices of titanium dioxide sold in the U.S. between at least March 1, 2002 and the present. The other defendants named in this matter were DuPont, Kronos and Cristal (formerly Millennium). On August 28, 2012, the court certified a class consisting of all U.S. customers who purchased titanium dioxide directly from the defendants (the "Direct Purchasers") since February 1, 2003. We and all other defendants settled the Direct Purchasers litigation and the court approved the settlement on December 13, 2013. We paid the settlement in an amount immaterial to our condensed consolidated financial statements (unaudited).

On November 22, 2013, we were named as a defendant in a civil antitrust suit filed in the U.S. District Court for the District of Minnesota brought by a Direct Purchaser who opted out of the Direct Purchasers class litigation (the "Opt-Out Litigation"). On April 21, 2014, the court severed the claims against us from the other defendants and ordered our case transferred to the U.S. District Court for

the Southern District of Texas. Subsequently, Kronos, another defendant, was also severed from the Minnesota case and claims against it were transferred and consolidated for trial with our case in the Southern District of Texas. Trial is scheduled for February 22, 2016. It is possible that additional claims will be filed by other Direct Purchasers who opted out of the class litigation.

We were also named as a defendant in a class action civil antitrust suit filed on March 15, 2013 in the U.S. District Court for the Northern District of California by the purchasers of products made from titanium dioxide (the "Indirect Purchasers") making essentially the same allegations as did the Direct Purchasers. On October 14, 2014, Plaintiffs filed their Second Amended Class Action Complaint narrowing the class of plaintiffs to those merchants and consumers of architectural coatings containing titanium dioxide. Plaintiffs have raised state antitrust claims under the laws of 16 states, consumer protection claims under the laws of 10 states, as well as unjust enrichment claims under the laws of 20 states. The Opt-Out Litigation and Indirect Purchasers plaintiffs seek to recover injunctive relief, treble damages or the maximum damages allowed by state law, costs of suit and attorneys' fees. We are not aware of any illegal conduct by us or any of our employees. Nevertheless, we have incurred costs relating to these claims and could incur additional costs in amounts which in the aggregate could be material to us. Because of the overall complexity of these cases, we are unable to reasonably estimate any possible loss or range of loss associated with these claims and we have made no accruals with respect to these claims.

Product Delivery Claim

We have been notified by a customer of potential claims related to our alleged delivery of a different product than the one the customer had ordered. Our customer claims that it was unaware that the different product had been delivered until after that product had been used to manufacture materials which were subsequently sold. Originally, the customer stated that it had been notified of claims by its customers of up to an aggregate of €153 million (approximately \$166 million) relating to this matter and claimed that we may be responsible for all or a portion of these potential claims. Our customer has since resolved some of these claims and the aggregate amount of the current claims is now approximately €113 million (approximately \$123 million). Based on the facts currently available, we believe that we are insured for any liability we may ultimately have in excess of \$10 million. However, no assurance can be given regarding our ultimate liability or costs. We believe our range of possible loss in this matter is between €0 and €113 million (approximately \$123 million), and we have made no accrual with respect to this matter.

Indemnification Matters

On July 3, 2012, Deutsche Bank Securities Inc. and Credit Suisse Securities (USA) LLC, demanded that we indemnify them for claims brought against them by certain MatlinPatterson entities that were formerly our stockholders ("MatlinPatterson") in litigation filed by MatlinPatterson on June 19, 2012 in the 9th District Court in Montgomery County, Texas (the "Texas Litigation"). The Banks assert that they are entitled to indemnification pursuant to the Agreement of Compromise and Settlement between the Banks and our Company, dated June 22, 2009, wherein the Banks and our Company settled claims that we filed relating to the failed acquisition by and merger with Hexion. MatlinPatterson claims that the Banks knowingly made materially false representations about the

13. COMMITMENTS AND CONTINGENCIES (Continued)

nature of the financing for the acquisition of our Company by Hexion and that they suffered substantial loss in value to their 19 million shares of our common stock as a result thereof. MatlinPatterson is asserting statutory fraud, common law fraud and aiding and abetting statutory fraud and are seeking actual damages, exemplary damages, costs and attorney's fees and pre-judgment and post-judgment interest. On December 21, 2012, the court dismissed the Texas Litigation, a decision which was affirmed by the Ninth Court of Appeals of Texas on May 15, 2014. A subsequent motion for rehearing by MatlinPatterson was denied by the same appellate court on June 12, 2014. A petition for discretionary review in the Texas Supreme Court was filed on July 28, 2014 and is currently pending.

On July 14, 2014, the Banks demanded that we indemnify them for additional claims brought against them by certain other former Company stockholders in litigation filed June 14, 2014 in the United States District Court for the Eastern District of Wisconsin (the "Wisconsin Litigation"). The stockholders in the Wisconsin Litigation have made essentially the same allegations as MatlinPatterson made in the Texas Litigation and, additionally, have named Apollo Global Management LLC and Apollo Management Holdings, L.P. as defendants. Stockholder plaintiffs in the Wisconsin Litigation assert claims for misrepresentation and conspiracy to defraud. On April 9, 2015, the court denied the Banks' motions to dismiss the Wisconsin Litigation, which were on the same grounds asserted in the Texas Litigation, as moot. We expect the Banks to refile these motions once limited discovery related to jurisdiction is complete. We denied the Banks' indemnification demand for both the Texas Litigation and the Wisconsin Litigation.

Other Proceedings

We are a party to various other proceedings instituted by private plaintiffs, governmental authorities and others arising under provisions of applicable laws, including various environmental, products liability and other laws. Except as otherwise disclosed in this report, we do not believe that the outcome of any of these matters will have a material effect on our financial condition, results of operations or liquidity.

14. ENVIRONMENTAL, HEALTH AND SAFETY MATTERS

General

We are subject to extensive federal, state, local and international laws, regulations, rules and ordinances relating to safety, pollution, protection of the environment, product management and distribution, and the generation, storage, handling, transportation, treatment, disposal and remediation of hazardous substances and waste materials. In the ordinary course of business, we are subject to frequent environmental inspections and monitoring and occasional investigations by governmental enforcement authorities. In addition, our production facilities require operating permits that are subject to renewal, modification and, in certain circumstances, revocation. Actual or alleged violations of safety laws, environmental laws or permit requirements could result in restrictions or prohibitions on plant operations or product distribution, substantial civil or criminal sanctions, as well as, under some environmental laws, the assessment of strict liability and/or joint and several liability. Moreover, changes in environmental regulations could inhibit or interrupt our operations, or require us to modify

HUNTSMAN INTERNATIONAL LLC AND SUBSIDIARIES

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (UNAUDITED) (Continued)

14. ENVIRONMENTAL, HEALTH AND SAFETY MATTERS (Continued)

our facilities or operations. Accordingly, environmental or regulatory matters may cause us to incur significant unanticipated losses, costs or liabilities.

Environmental, Health and Safety Systems

We are committed to achieving and maintaining compliance with all applicable environmental, health and safety ("EHS") legal requirements, and we have developed policies and management systems that are intended to identify the multitude of EHS legal requirements applicable to our operations, enhance compliance with applicable legal requirements, improve the safety of our employees, contractors, community neighbors and customers and minimize the production and emission of wastes and other pollutants. Although EHS legal requirements are constantly changing and are frequently difficult to comply with, these EHS management systems are designed to assist us in our compliance goals while also fostering efficiency and improvement and reducing overall risk to us.

EHS Capital Expenditures

We may incur future costs for capital improvements and general compliance under EHS laws, including costs to acquire, maintain and repair pollution control equipment. For the three months ended March 31, 2015 and 2014, our capital expenditures for EHS matters totaled \$26 million and \$17 million, respectively. Because capital expenditures for these matters are subject to evolving regulatory requirements and depend, in part, on the timing, promulgation and enforcement of specific requirements, our capital expenditures for EHS matters have varied significantly from year to year and we cannot provide assurance that our recent expenditures are indicative of future amounts we may spend related to EHS and other applicable laws.

We have incurred, and we may in the future incur, liability to investigate and clean up waste or contamination at our current or former facilities or facilities operated by third parties at which we may have disposed of waste or other materials. Similarly, we may incur costs for the cleanup of waste that was disposed of prior to the purchase of our businesses. Under some circumstances, the scope of our liability may extend to damages to natural resources.

Under the Comprehensive Environmental Response, Compensation, and Liability Act ("CERCLA") and similar state laws, a current or former owner or operator of real property in the U.S. may be liable for remediation costs regardless of whether the release or disposal of hazardous substances was in compliance with law at the time it occurred, and a current owner or operator may be liable regardless of whether it owned or operated the facility at the time of the release. Outside the U.S., analogous contaminated property laws, such as those in effect in France and Australia, can hold past owners and/or operators liable for remediation at former facilities. Currently, there are approximately 10 former facilities or third-party sites in the U.S. for which we have been notified of potential claims against us for cleanup liabilities, including, but not limited to, sites listed under CERCLA. Based on current information and past experiences at other CERCLA sites, we do not expect these third-party claims to have a material impact on our consolidated financial statements.

One of these sites, the North Maybe Canyon Mine site, involves a former phosphorous mine near Soda Springs, Idaho, which is believed to have been operated by several companies, including a predecessor company to us. In 2004, the U.S. Forest Service notified us that we are a CERCLA

HUNTSMAN CORPORATION AND SUBSIDIARIES

HUNTSMAN INTERNATIONAL LLC AND SUBSIDIARIES

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (UNAUDITED) (Continued)

14. ENVIRONMENTAL, HEALTH AND SAFETY MATTERS (Continued)

potentially responsible party ("PRP") for contamination originating from the site. In February 2010, we and Wells Cargo (another PRP) agreed to conduct a Remedial Investigation/Feasibility Study of a portion of the site and are currently engaged in that process. At this time, we are unable to reasonably estimate our potential liabilities at this site.

Another of these sites, the Star Lake Canal site in Port Neches, TX, involves a discharge point for manufacturing facilities owned by us and several other local chemical manufacturers. The U.S. Environmental Protection Agency (the "EPA") issued a draft Consent Decree related to cleanup at this site to us and a prior owner in September 2014. The prior owner has an indemnification obligation and has accepted defense of this matter. As of March 31, 2015, we had an accrued liability of approximately \$18 million relating to this matter and a corresponding receivable of approximately \$18 million relating to our indemnity protection.

In addition, under the Resource Conservation and Recovery Act ("RCRA") in the U.S. and similar state laws, we may be required to remediate contamination originating from our properties as a condition to our hazardous waste permit. Some of our manufacturing sites have an extended history of industrial chemical manufacturing and use, including on-site waste disposal. We are aware of soil, groundwater or surface contamination from past operations at some of our sites, and we may find contamination at other sites in the future. For example, our Port Neches, Texas, and Geismar, Louisiana, facilities are the subject of ongoing remediation requirements imposed under RCRA. Similar laws exist in a number of locations in which we currently operate, or previously operated, manufacturing facilities, such as Australia, India, France, Hungary and Italy.

By letter dated March 7, 2006, our former Base Chemicals and Polymers facility in West Footscray, Australia was issued a cleanup notice by the Environmental Protection Authority Victoria ("EPA Victoria") due to concerns about soil and groundwater contamination emanating from the site. On August 23, 2010, EPA Victoria revoked a second cleanup notice and issued a revised notice that included a requirement for financial assurance for the remediation. As of March 31, 2015, we had an accrued liability of approximately \$19 million related to estimated environmental remediation costs at this site. We can provide no assurance that the authority will not seek to institute additional requirements for the site or that additional costs will not be required for the cleanup.

In many cases, our potential liability arising from historical contamination is based on operations and other events occurring prior to our ownership of a business or specific facility. In these situations, we frequently obtained an indemnity agreement from the prior owner addressing remediation liabilities arising from pre-closing conditions. We have successfully exercised our rights under these contractual covenants for a number of sites and, where applicable, mitigated our ultimate remediation liability. We cannot assure you, however, that the liabilities for all such matters subject to indemnity will be honored by the prior owner or that our existing indemnities will be sufficient to cover our liabilities for such matters.

Based on available information and the indemnification rights we believe are likely to be available, we believe that the costs to investigate and remediate known contamination will not have a material effect on our financial statements. However, if such indemnities are not honored or do not fully cover the costs of investigation and remediation or we are required to contribute to such costs, then such expenditures may have a material effect on our financial statements. At the current time, we are unable

to estimate the total cost, exclusive of indemnification benefits, to remediate any of the known contamination sites.

ENVIRONMENTAL RESERVES

We have accrued liabilities relating to anticipated environmental cleanup obligations, site reclamation and closure costs and known penalties. Liabilities are recorded when potential liabilities are either known or considered probable and can be reasonably estimated. Our liability estimates are calculated using present value techniques as appropriate and are based upon requirements placed upon us by regulators, available facts, existing technology and past experience. The environmental liabilities do not include amounts recorded as asset retirement obligations. We had accrued \$57 million and \$60 million for environmental liabilities as of March 31, 2015 and December 31, 2014, respectively. Of these amounts, \$6 million and \$7 million were classified as accrued liabilities in our condensed consolidated balance sheets as of March 31, 2015 and December 31, 2014 (unaudited), respectively, and \$51 million and \$53 million were classified as other noncurrent liabilities in our condensed consolidated balance sheets as of March 31, 2015 and December 31, 2014 (unaudited), respectively. In certain cases, our remediation liabilities may be payable over periods of up to 30 years. We may incur losses for environmental remediation in excess of the amounts accrued; however, we are not able to estimate the amount or range of such potential excess.

On October 1, 2014, the Company completed the Rockwood Acquisition. The properties involved in the transaction are located primarily in China, Finland, Germany, Italy, the United Kingdom and the U.S., and include both owned and leased sites. The existence of soil and groundwater contamination from historical industrial operations is known to exist at some of these new properties. As of March 31, 2015 and December 31, 2014, these newly acquired businesses had accrued \$16 million and \$17 million, respectively, for environmental liabilities (including remediations, investigations, groundwater monitoring, and reclamation obligations associated with landfill operations), which are included within the accrued environmental liabilities disclosed above. Of these amounts \$3 million for each was classified as accrued liabilities and \$13 million and \$14 million was classified as other noncurrent liabilities, respectively. In certain cases, these remediation liabilities may be payable over periods of up to 30 years. The Company is currently evaluating these new reserve amounts in relation to similar reserves recorded by the Company in the past, as well as within the context of the terms of the acquisition agreements. Pursuant to the agreements related to the Rockwood Acquisition, Rockwood has agreed to indemnify us for certain environmental matters.

REGULATORY DEVELOPMENTS

The European Union regulatory framework for chemicals, called "REACH," became effective in 2007 and is designed to be phased in gradually over 11 years. As a REACH-regulated company that manufactures in or imports more than one metric ton per year of a chemical substance into the European Economic Area, we were required to pre-register with the European Chemicals Agency such chemical substances and isolated intermediates to take advantage of the 11 year phase-in period. To meet our compliance obligations, a cross-business REACH team was established, through which we were able to fulfill all required pre-registrations, our first phase registrations by the November 30, 2010 deadline and our second phase registrations by the May 31, 2013 deadline. While we continue our

HUNTSMAN CORPORATION AND SUBSIDIARIES

HUNTSMAN INTERNATIONAL LLC AND SUBSIDIARIES

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (UNAUDITED) (Continued)

14. ENVIRONMENTAL, HEALTH AND SAFETY MATTERS (Continued)

registration efforts to meet the next registration deadline of May 31, 2018, our REACH implementation team is now strategically focused on the evaluation and authorization phases of the REACH process, directing its efforts to address "Substances of Very High Concern" and evaluating potential business implications. Where warranted, evaluation of substitute chemicals will be an important element of our ongoing manufacturing sustainability efforts. As a chemical manufacturer with global operations, we are also actively monitoring and addressing analogous regulatory regimes being considered or implemented outside of the European Union, such as in Korea and Taiwan.

Although the total long-term cost for REACH compliance is unknown at this time, we spent approximately \$5 million, \$4 million and \$8 million in 2014, 2013 and 2012, respectively, to meet the initial REACH requirements. We cannot provide assurance that these recent expenditures are indicative of future amounts that we may be required to spend for REACH compliance.

GREENHOUSE GAS REGULATION

Globally, our operations are increasingly subject to regulations that seek to reduce emissions of "greenhouse gases" ("GHGs"), such as carbon dioxide and methane, which may be contributing to changes in the earth's climate. At the Durban negotiations of the Conference of the Parties to the Kyoto Protocol in 2012, a limited group of nations, including the European Union, agreed to a second commitment period for the Kyoto Protocol, an international treaty that provides for reductions in GHG emissions. More significantly, the European Union GHG Emissions Trading System, established pursuant to the Kyoto Protocol to reduce GHG emissions in the European Union, continues in its third phase. The European Union parliament continues with a process to formalized "backloading"—the withholding of GHG allowances to prop up carbon prices. In addition, the European Union has recently announced its intentions to cut GHG emissions to 40% below 1990 levels by 2040 and impose a 27% renewable energy requirement at the European Union level. In the U.S., California has commenced the first compliance period of its cap-and-trade program. In June 2013, China implemented its first pilot carbon emissions exchange in Shenzhen, China. Pilot carbon emissions schemes have also begun in Beijing, Shanghai, Guangdong, and Tianjin. Further expansion of China's regional cap- and-trade is planned, and ultimately it is expected that these regional systems will form the backbone of a national cap-and-trade program. As these programs have not been fully implemented and have experienced significant price volatility on low early trading volumes, we are unable at this time to determine their impact on our operations.

Federal climate change legislation in the U.S. appears unlikely in the near-term. As a result, domestic efforts to curb GHG emissions will continue to be led by the EPA's GHG regulations and the efforts of states. To the extent that our domestic operations are subject to the EPA's GHG regulations, we may face increased capital and operating costs associated with new or expanded facilities. Significant expansions of our existing facilities or construction of new facilities may be subject to the Clean Air Act's (the "CAA") Prevention of Significant Deterioration requirements under the EPA's GHG "Tailoring Rule." Some of our facilities are also subject to the EPA's Mandatory Reporting of Greenhouse Gases rule, and any further regulation may increase our operational costs.

HUNTSMAN CORPORATION AND SUBSIDIARIES**HUNTSMAN INTERNATIONAL LLC AND SUBSIDIARIES****NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (UNAUDITED) (Continued)****14. ENVIRONMENTAL, HEALTH AND SAFETY MATTERS (Continued)**

Under a consent decree with states and environmental groups, the EPA is due to propose new source performance standards for GHG emissions from refineries. These standards could significantly increase the costs of constructing or adding capacity to refineries and may ultimately increase the costs or decrease the supply of refined products. Either of these events could have an adverse effect on our business.

We are already managing and reporting GHG emissions, to varying degrees, as required by law for our sites in locations subject to Kyoto Protocol obligations and/or European Union emissions trading scheme requirements. Although these sites are subject to existing GHG legislation, few have experienced or anticipate significant cost increases as a result of these programs, although it is possible that GHG emission restrictions may increase over time. Potential consequences of such restrictions include capital requirements to modify assets to meet GHG emission restrictions and/or increases in energy costs above the level of general inflation, as well as direct compliance costs. Currently, however, it is not possible to estimate the likely financial impact of potential future regulation on any of our sites.

Finally, it should be noted that some scientists have concluded that increasing concentrations of GHGs in the earth's atmosphere may produce climate changes that have significant physical effects, such as increased frequency and severity of storms, droughts, and floods and other climatic events. If any of those effects were to occur, they could have an adverse effect on our assets and operations.

15. STOCK-BASED COMPENSATION PLANS

Under the Huntsman Corporation Stock Incentive Plan, as amended and restated (the "Stock Incentive Plan"), a plan approved by stockholders, we may grant nonqualified stock options, incentive stock options, stock appreciation rights, restricted stock, phantom stock, performance awards and other stock-based awards to our employees, directors and consultants and to employees and consultants of our subsidiaries, provided that incentive stock options may be granted solely to employees. The terms of the grants are fixed at the grant date. As of March 31, 2015, we were authorized to grant up to 37.2 million shares under the Stock Incentive Plan. As of March 31, 2015, we had 7 million shares remaining under the Stock Incentive Plan available for grant. Option awards have a maximum contractual term of 10 years and generally must have an exercise price at least equal to the market price of our common stock on the date the option award is granted. Stock-based awards generally vest over a three-year period; certain performance awards vest over a two-year period.

The compensation cost from continuing operations under the Stock Incentive Plan for our Company and Huntsman International were as follows (dollars in millions):

	Three months ended March 31,	
	2015	2014
Huntsman Corporation compensation cost	\$ 9	\$ 8
Huntsman International compensation cost	8	7

15. STOCK-BASED COMPENSATION PLANS (Continued)

The total income tax benefit recognized in the statements of operations for us and Huntsman International for stock-based compensation arrangements were \$2 million and \$1 million, respectively, for the three months ended March 31, 2015 and 2014, respectively.

STOCK OPTIONS

The fair value of each stock option award is estimated on the date of grant using the Black-Scholes valuation model that uses the assumptions noted in the following table. Expected volatilities are based on the historical volatility of our common stock through the grant date. The expected term of options granted was estimated based on the contractual term of the instruments and employees' expected exercise and post-vesting employment termination behavior. The risk-free rate for periods within the contractual life of the option was based on the U.S. Treasury yield curve in effect at the time of grant. The assumptions noted below represent the weighted average of the assumptions utilized for stock options granted during the periods.

	Three months ended March 31,	
	2015	2014
Dividend yield	2.2%	2.4%
Expected volatility	58.0%	60.3%
Risk-free interest rate	1.4%	1.7%
Expected life of stock options granted during the period	5.9 years	5.7 years

A summary of stock option activity under the Stock Incentive Plan as of March 31, 2015 and changes during the three months then ended is presented below:

<u>Option Awards</u>	<u>Shares</u> (in thousands)	<u>Weighted Average Exercise Price</u>	<u>Weighted Average Remaining Contractual Term</u> (years)	<u>Aggregate Intrinsic Value</u> (in millions)
Outstanding at January 1, 2015	8,781	\$ 14.84		
Granted	938	22.77		
Exercised	(12)	15.26		
Forfeited	—	—		
Outstanding at March 31, 2015	<u>9,707</u>	15.61	5.5	\$ 64
Exercisable at March 31, 2015	<u>7,619</u>	14.06	4.5	62

The weighted-average grant-date fair value of stock options granted during the three months ended March 31, 2015 was \$10.14 per option. As of March 31, 2015, there was \$18 million of total unrecognized compensation cost related to nonvested stock option arrangements granted under the Stock Incentive Plan. That cost is expected to be recognized over a weighted-average period of approximately 2.2 years.

15. STOCK-BASED COMPENSATION PLANS (Continued)

The total intrinsic value of stock options exercised during the three months ended March 31, 2015 and 2014 was approximately nil and \$1 million, respectively.

NONVESTED SHARES

Nonvested shares granted under the Stock Incentive Plan consist of restricted stock and performance awards, which are accounted for as equity awards, and phantom stock, which is accounted for as a liability award because it can be settled in either stock or cash.

During the first quarter of 2015, we began issuing performance awards to certain employees. The fair value of each performance award is estimated using a Monte Carlo simulation model that uses various assumptions, including an expected volatility rate and a risk-free interest rate. For the three months ended March 31, 2015, the weighted-average expected volatility rate was 30.0% and the weighted average risk-free interest rate was 0.7%. For the performance awards granted in the three months ended March 31, 2015, the number of shares earned varies based upon the Company achieving certain performance criteria over two-year and three-year performance periods. The performance criteria are total stockholder return of our common stock relative to the total stockholder return of a specified industry peer-group for the two-year and three-year performance periods.

A summary of the status of our nonvested shares as of March 31, 2015 and changes during the three months then ended is presented below:

	Equity Awards		Liability Awards	
	Shares (in thousands)	Weighted Average Grant-Date Fair Value	Shares (in thousands)	Weighted Average Grant-Date Fair Value
Nonvested at January 1, 2015	1,821	\$ 17.37	492	\$ 18.50
Granted	831	23.48	256	22.77
Vested	(743)(1)	17.26	(258)	17.09
Forfeited	(3)	19.96	—	—
Nonvested at March 31, 2015	1,906	17.03	490	21.47

- (1) As of March 31, 2015, a total of 423,873 restricted stock units were vested but not yet issued, of which 35,574 vested during the three months ended March 31, 2015. These shares have not been reflected as vested shares in this table because, in accordance with the restricted stock unit agreements, shares of common stock are not issued for vested restricted stock units until termination of employment.

As of March 31, 2015, there was \$39 million of total unrecognized compensation cost related to nonvested share compensation arrangements granted under the Stock Incentive Plan. That cost is expected to be recognized over a weighted-average period of approximately 2.2 years. The value of share awards that vested during the three months ended March 31, 2015 and 2014 was \$20 million and \$19 million, respectively.

16. INCOME TAXES

We use the asset and liability method of accounting for income taxes. Deferred income taxes reflect the net tax effects of temporary differences between the carrying amounts of assets and liabilities for financial and tax reporting purposes. We evaluate deferred tax assets to determine whether it is more likely than not that they will be realized. Valuation allowances are reviewed on an individual tax jurisdiction basis to analyze whether there is sufficient positive or negative evidence to support a change in judgment about the realizability of the related deferred tax assets. These conclusions require significant judgment. In evaluating the objective evidence that historical results provide, we consider the cyclical nature of our businesses and cumulative income or losses during the applicable period. Cumulative losses incurred over the applicable period limits our ability to consider other subjective evidence such as our projections for the future. Changes in expected future income in applicable jurisdictions could affect the realization of deferred tax assets in those jurisdictions.

During the three months ended March 31, 2015 and 2014, for unrecognized tax benefits that impact tax expense, we recorded a net decrease in unrecognized tax benefits and a corresponding income tax benefit of \$9 million, primarily in Asia, and a net increase in unrecognized benefits and a corresponding income tax expense of \$4 million, respectively. Additional increases and decreases in unrecognized tax benefits were offset by cash settlements or decreases in net deferred tax assets and, therefore, did not affect income tax expense.

Huntsman Corporation

We recorded income tax expense of \$2 million and \$36 million for the three months ended March 31, 2015 and 2014, respectively. Our tax expense is significantly affected by the mix of income and losses in the tax jurisdictions in which we operate, as impacted by the presence of valuation allowances in certain tax jurisdictions. Notably, we continue to earn a significant portion of our pre-tax income in the United States with an approximate 35% federal and state blended effective tax rate.

Huntsman International

Huntsman International recorded income tax expense of \$3 million and \$37 million for the three months ended March 31, 2015 and 2014, respectively. Our tax expense is significantly affected by the mix of income and losses in the tax jurisdictions in which we operate, as impacted by the presence of valuation allowances in certain tax jurisdictions. Notably, we continue to earn a significant portion of our pre-tax income in the United States with an approximate 35% federal and state blended effective tax rate.

17. NET INCOME PER SHARE

Basic income per share excludes dilution and is computed by dividing net income attributable to Huntsman Corporation common stockholders by the weighted average number of shares outstanding during the period. Diluted income per share reflects all potential dilutive common shares outstanding during the period and is computed by dividing net income available to Huntsman Corporation common stockholders by the weighted average number of shares outstanding during the period increased by the number of additional shares that would have been outstanding as dilutive securities.

17. NET INCOME PER SHARE (Continued)

Basic and diluted income per share is determined using the following information (in millions):

	Three months ended	
	March 31,	
	2015	2014
Numerator:		
Basic and diluted income from continuing operations:		
Income from continuing operations attributable to Huntsman Corporation	\$ 7	\$ 61

Shares (denominator):		
Weighted average shares outstanding	243.9	240.9
Dilutive securities:		
Stock-based awards	3.3	3.6
Total weighted average shares outstanding, including dilutive shares	247.2	244.5

Additional stock-based awards of 2.3 million and 1.3 million weighted average equivalent shares of stock were outstanding during the three months ended March 31, 2015 and 2014, respectively. However, these stock-based awards were not included in the computation of diluted earnings per share for the three months ended March 31, 2015 and 2014 because the effect would be anti-dilutive.

18. OPERATING SEGMENT INFORMATION

We derive our revenues, earnings and cash flows from the manufacture and sale of a wide variety of differentiated and commodity chemical products. We have reported our operations through five segments: Polyurethanes, Performance Products, Advanced Materials, Textile Effects and Pigments and Additives. We have organized our business and derived our operating segments around differences in product lines.

The major products of each reportable operating segment are as follows:

Segment	Products
Polyurethanes	MDI, PO, polyols, PG, TPU, aniline and MTBE
Performance Products	amines, surfactants, LAB, maleic anhydride, other performance chemicals, EG, olefins and technology licenses
Advanced Materials	basic liquid and solid epoxy resins; specialty resin compounds; cross-linking, matting and curing agents; epoxy, acrylic and polyurethane-based formulations
Textile Effects	textile chemicals and dyes
Pigments and Additives	titanium dioxide, functional additives, color pigments, timber treatment and water treatment chemicals

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

FORWARD-LOOKING STATEMENTS

With respect to Huntsman Corporation, certain information set forth in this report contains "forward-looking statements" within the meaning of the federal securities laws. Huntsman International is a limited liability company, and, pursuant to Section 21E(b)(2)(E) of the Securities Exchange Act of 1934, as amended (the "Exchange Act"), the safe harbor for certain forward-looking statements is inapplicable to it. Forward-looking statements include statements concerning our plans, objectives, goals, strategies, future events, future revenues or performance, capital expenditures, financing needs, plans or intentions relating to acquisitions and other information that is not historical information. In some cases, forward-looking statements can be identified by terminology such as "believes," "expects," "may," "should," "anticipates," or "intends" or the negative of such terms or other comparable terminology, or by discussions of strategy. We may also make additional forward-looking statements from time to time. All such subsequent forward-looking statements, whether written or oral, by us or on our behalf, are also expressly qualified by these cautionary statements.

All forward-looking statements, including without limitation management's examination of historical operating trends, are based upon our current expectations and various assumptions. Our expectations, beliefs and projections are expressed in good faith and we believe there is a reasonable basis for them, but there can be no assurance that management's expectations, beliefs and projections will result or be achieved. All forward-looking statements apply only as of the date made. We undertake no obligation to publicly update or revise forward-looking statements which may be made to reflect events or circumstances after the date made or to reflect the occurrence of unanticipated events.

There are a number of risks and uncertainties that could cause our actual results to differ materially from the forward-looking statements contained in or contemplated by this report. Any forward-looking statements should be considered in light of the risks referenced in "Part I. Item 1A. Risk Factors" in our Annual Report on Form 10-K for the year ended December 31, 2014.

OVERVIEW

Business

We operate in five segments: Polyurethanes, Performance Products, Advanced Materials, Textile Effects and Pigments and Additives. Our products comprise a broad range of chemicals and formulations, which we market globally to a diversified group of consumer and industrial customers. Our products are used in a wide range of applications, including those in the adhesives, aerospace, automotive, construction products, personal care and hygiene, durable and non-durable consumer products, electronics, medical, packaging, paints and coatings, power generation, refining, synthetic fiber, textile chemicals and dye industries. We are a leading global producer in many of our key product lines, including MDI, amines, surfactants, maleic anhydride, epoxy-based polymer formulations, textile chemicals, dyes, titanium dioxide and color pigments. Our revenues for the three months ended March 31, 2015 and 2014 were \$2,589 million and \$2,755 million, respectively.

RECENT DEVELOPMENTS

Debt Issuance

On March 31, 2015, Huntsman International completed a €300 million (approximately \$326 million) offering of the 2025 Senior Notes. On April 17, 2015, Huntsman International used the net proceeds of this offering to redeem \$289 million (\$294 carrying value) of the 2021 Senior Subordinated Notes. For more information, see "Note 7. Debt—Direct and Subsidiary Debt—Redemption of Notes and Loss on Early Extinguishment of Debt" to our condensed consolidated

financial statements (unaudited). In connection with this redemption, Huntsman International incurred a \$20 million loss on early extinguishment of debt in the second quarter of 2015. As of March 31, 2015, \$294 million was classified as current portion of debt on our condensed consolidated balance sheets (unaudited).

Pigments and Additives Restructurings

On February 12, 2015, we announced a plan to close the 'black end' manufacturing operations and ancillary activities at our Calais, France site, which will reduce our titanium dioxide capacity by approximately 100 kilotons, or 13% of our European titanium dioxide capacity. The 'black end' is responsible for the start of the titanium dioxide manufacturing process. The 'white end' is used to finish and pack titanium dioxide and will remain operational employing up to 100 people on the site. In connection with this announcement, we began to accelerate depreciation on the affected assets and recorded incremental accelerated depreciation in the first quarter of 2015 of \$28 million as restructuring, impairment and plant closing costs on our condensed consolidated statements of operations (unaudited). For more information, see "Note 6. Restructuring, Impairment and Plant Closing Costs" to our condensed consolidated financial statements (unaudited).

On March 4, 2015, we announced plans to restructure our color pigments business, another step in our previously announced plan to significantly restructure our global Pigments and Additives segment. For more information, see "Note 6. Restructuring, Impairment and Plant Closing Costs" to our condensed consolidated financial statements (unaudited).

OUTLOOK

The profitability of our differentiated businesses, which include MDI urethanes, Performance Products, Advanced Materials and Textile Effects, continues to improve compared to the prior year. We continue to see strength in the markets we are serving and are encouraged by future growth prospects.

Business conditions remain challenging for the titanium dioxide market; however, earnings improved in the first quarter compared to the fourth quarter of 2014. We have taken aggressive self-help measures in our Pigments and Additives segment to deliver synergies and restructuring savings by the middle of 2016.

During the first quarter of 2015, we completed planned maintenance at our PO/MTBE facility in Port Neches, Texas. Following completion of the planned maintenance, we experienced some delays in the restart of the facility during April. We are currently operating at normal rates.

Our earnings are subject to fluctuations due to exchange rate movements. Our revenues and expenses are denominated in various currencies, including the primary European currencies which have recently been volatile, while our reporting currency is the U.S. dollar. Generally, a decline in the value of the Euro relative to the U.S. dollar will reduce the reported profitability of our Polyurethanes, Performance Products, Advanced Materials and Pigments and Additives segments. A decline in the value of the Pound Sterling relative to the U.S. dollar will increase the reported profitability of our Pigments and Additives segment and an increase in the value of the Swiss Franc relative to the U.S. dollar will reduce the reported profitability of our Advanced Materials and Textile Effects segments. We are also exposed to other foreign currencies including the Chinese Renminbi, the Indian Rupiah, the Brazilian Real and the Thai Baht. In general, a decline in the value of these currencies as compared to the U.S. dollar will reduce our reported profitability. We estimate a negative EBITDA impact from changes in exchange rates of approximately \$17 million during the first quarter of 2015 compared to the same period in 2014.

[Table of Contents](#)

The following is a summary of the key trends expected in our business segments:

Polyurethanes:

- Strong MDI demand in the U.S., attractive (albeit lower) demand in Asia, improving demand in Europe
- Improving MDI margins
- Lower PO/MTBE margins
- Delayed restart of PO/MTBE facility into the second quarter following planned maintenance
- Negative foreign currency exchange impact

Performance Products:

- Benefits of European surfactants restructuring in 2015
- Improving downstream product margins
- 2016 benefits of growth projects, such as ethylene oxide expansion in the U.S. and polyetheramines expansion in Singapore
- Lower oil prices reduce U.S. Gulf Coast manufacturing advantage

Advanced Materials:

- Strong aerospace market

Textile Effects:

- Selective growth above underlying market demand
- Seasonal demand improvement in second quarter 2015
- Progressive environmental regulations impacting raw material costs

Pigments and Additives:

- Approximately \$140 million of synergies from integration of former Rockwood businesses
- Approximately \$35 million of cost savings from the planned 'black end' titanium dioxide capacity rationalization in Calais, France
- 2016 benefits from new color pigments facility in the U.S.

We expect to spend approximately \$625 million in 2015 on capital expenditures, net of reimbursements.

We expect our full year 2015 adjusted effective income tax rate to be in the range of 30%. We believe our long-term effective income tax rate will be approximately 30%.

NM—Not Meaningful

- (1) Our management uses EBITDA and adjusted EBITDA to assess financial performance. EBITDA is defined as net income (loss) attributable to Huntsman Corporation or Huntsman International, as appropriate, before interest, income taxes, depreciation and amortization. Adjusted EBITDA is computed by eliminating the following from EBITDA: (a) acquisition and integration expenses and purchase accounting adjustments; (b) EBITDA from discontinued operations; (c) loss on early extinguishment of debt; (d) certain legal settlements and related expenses; (e) amortization of pension and postretirement actuarial losses; and (f) restructuring, impairment, plant closing and transition costs.

EBITDA and adjusted EBITDA may not necessarily be comparable to other similarly titled measures used by other companies. There are material limitations associated with our use of these measures because they do not reflect overall financial performance, including the effects of interest, income taxes, depreciation and amortization. Our management compensates for the limitations of these measures by using them as a supplement to GAAP results.

- (2) Adjusted net income is computed by eliminating the after-tax amounts related to the following from net income attributable to Huntsman Corporation or Huntsman International, as appropriate: (a) acquisition and integration expenses and purchase accounting adjustments; (b) loss from discontinued operations; (c) loss on early extinguishment of debt; (d) certain legal settlements and related expenses; (e) amortization of pension and postretirement actuarial losses; and (f) restructuring, impairment and plant closing and transition costs. The income tax impacts, if any, of each adjusting item represent a ratable allocation of the total difference between the unadjusted tax expense and the total adjusted tax expense, computed without consideration of any adjusting items using a with and without approach. We do not adjust for changes in tax valuation allowances because we do not believe it provides more meaningful information than is provided under GAAP. Basic adjusted income per share excludes dilution and is computed by dividing adjusted net income by the weighted average number of shares outstanding during the period. Diluted net income per share reflects all potential dilutive common shares outstanding during the period and is computed by dividing adjusted net income by the weighted average number of shares outstanding during the

period increased by the number of additional shares that would have been outstanding as dilutive securities.

Adjusted net income and adjusted income per share amounts are presented solely as supplemental information.

- (3) Includes cost associated with the transition of our Textile Effects segment's production from Basel, Switzerland to a tolling facility. These transition costs were included in cost of sales on our condensed consolidated statement of operations (unaudited).
- (4) Capital expenditures, net of reimbursements, represent cash paid for capital expenditures less payments received as reimbursements from customers and joint venture partners. During the three months ended March 31, 2015 and 2014, capital expenditures of \$149 million and \$107 million, respectively, were reimbursed in part by \$2 million and nil, respectively.

Three Months Ended March 31, 2015 Compared with Three Months Ended March 31, 2014

For the three months ended March 31, 2015, net income attributable to Huntsman Corporation was \$5 million on revenues of \$2,589 million, compared with net income attributable to Huntsman Corporation of \$54 million on revenues of \$2,755 million for the same period of 2014. For the three months ended March 31, 2015, net income attributable to Huntsman International was \$5 million on revenues of \$2,589 million, compared with net income attributable to Huntsman International of \$57 million on revenues of \$2,755 million for the same period of 2014. The decrease of \$49 million in net income attributable to Huntsman Corporation and the decrease of \$52 million in net income attributable to Huntsman International was the result of the following items:

- Revenues for the three months ended March 31, 2015 decreased by \$166 million, or 6%, as compared with the 2014 period. The decrease was due principally to lower sales volumes in all our segments and lower average selling prices in local currencies in all our segments, except for our Advanced Materials and Textile Effects segment. See "—Segment Analysis" below.
- Our gross profit and the gross profit of Huntsman International for the three months ended March 31, 2015 decreased by nil and \$3 million, respectively, or nil and 1%, respectively, as compared with the 2014 period. The decrease resulted from lower gross margins in our Polyurethanes and Pigments and Additives segments. See "—Segment Analysis" below.
- Our operating expenses and the operating expenses of Huntsman International for the three months ended March 31, 2015 increased by \$19 million and \$20 million, respectively, or 7% and 8%, respectively, as compared with the 2014 period, primarily related to the consolidated expenses of the acquired Rockwood businesses.
- Restructuring, impairment and plant closing costs for the three months ended March 31, 2015 increased to \$93 million from \$39 million in the 2014 period. For more information concerning restructuring activities, see "Note 6. Restructuring, Impairment and Plant Closing Costs" to our condensed consolidated financial statements (unaudited).
- Our interest expense and the interest expense of Huntsman International for the three months ended March 31, 2015 increased by \$8 million and \$7 million, respectively, or 17% and 14%, respectively, as compared with the 2014 period. The increase was due primarily to increased borrowings related to the Rockwood Acquisition.
- Loss on early extinguishment of debt for the three months ended March 31, 2015 increased to \$3 million from nil in the 2014 period. During the three months ended March 31, 2015, we recorded a loss on early extinguishment of debt of \$3 million primarily from the redemption of a portion of our 2021 Senior Subordinated Notes. For more information, see "Note 7. Debt—

Direct and Subsidiary Debt—Redemption of Notes and Loss on Early Extinguishment of Debt" to our condensed consolidated financial statements (unaudited).

- Our income tax expense and the income tax expense of Huntsman International for the three months ended March 31, 2015 decreased by \$34 million each, or 94% and 92%, respectively, as compared with the same period in 2014 primarily due to decreased pre-tax income. Our tax expense is significantly affected by the mix of income and losses in the tax jurisdictions in which we operate, as impacted by the presence of valuation allowances in certain tax jurisdictions. For further information concerning taxes, see "Note 16. Income Taxes" to our condensed consolidated financial statements (unaudited).

Polyurethanes

The decrease in revenues in our Polyurethanes segment for the three months ended March 31, 2015 compared to the same period of 2014 was primarily due to scheduled maintenance outage at our PO/MTBE facility in Port Neches, Texas in the first quarter of 2015. MDI sales volumes increased due to improved demand in the Americas and European regions and across most major markets. PO/MTBE sales volumes decreased due to the scheduled maintenance outage at our PO/MTBE facility in Port Neches, Texas that commenced at the end of January 2015. PO/MTBE average selling prices decreased following lower pricing for high octane gasoline. MDI average selling prices decreased primarily in response to lower raw material costs and the foreign currency exchange impact of a stronger U.S. dollar against major European currencies. The decrease in segment EBITDA was primarily due to lower PO/MTBE earnings, partially offset by higher MDI sales margins. We estimate the reduction to segment EBITDA resulting from the planned PO/MTBE maintenance outage to be approximately \$60 million in the first quarter of 2015.

Performance Products

The decrease in revenues in our Performance Products segment for the three months ended March 31, 2015 compared to the same period of 2014 was due to lower sales volumes and lower average selling prices. Sales volumes decreased primarily due to the sale of our European surfactants business in the second quarter of 2014, partially offset by increased sales volumes in amines and maleic anhydride. Average selling prices decreased primarily due to lower raw material costs and the foreign currency exchange impact of a stronger U.S. dollar against major European currencies. The increase in segment EBITDA was primarily due to higher sales volumes and higher margins in our amines and

maleic anhydride businesses and lower restructuring, impairment and plant closing costs. During the three months ended March 31, 2015 and 2014, our Performance Products segment recorded restructuring, impairment and plant closing costs of \$1 million and \$24 million, respectively. For more information concerning restructuring activities, see "Note 6. Restructuring, Impairment and Plant Closing Costs" to our condensed consolidated financial statements (unaudited).

Advanced Materials

The decrease in revenues in our Advanced Materials segment for the three months ended March 31, 2015 compared to the same period of 2014 was due to lower sales volumes. Sales volumes decreased primarily due to the de-selection of certain business and our restructuring efforts. Average selling prices increased in all regions on a local currency basis and across most markets primarily due to certain price increase initiatives and our focus on higher value markets, offset by the foreign currency exchange impact of a stronger U.S. dollar against major European currencies. The increase in segment EBITDA was primarily due to higher margins from our focus on higher value business and lower fixed costs as well as lower restructuring, impairment and plant closing costs. During the three months ended March 31, 2015 and 2014, our Advanced Materials segment recorded restructuring, impairment and plant closing costs of nil and \$4 million, respectively. For more information concerning restructuring activities, see "Note 6. Restructuring, Impairment and Plant Closing Costs" to our condensed consolidated financial statements (unaudited).

Textile Effects

The decrease in revenues in our Textile Effects segment for the three months ended March 31, 2015 compared to the same period of 2014 was due to lower sales volumes. Sales volumes decreased primarily due to the de-selection of lower value business and destocking within the fibers and dyes supply chain. Average selling prices increased due to the implementation of price increases, offset by the impact of a stronger U.S. dollar against major European currencies. The increase in segment EBITDA was primarily due to higher margins from our focus on higher value business and lower fixed costs and lower restructuring, impairment and plant closing and transition costs. During the three months ended March 31, 2015 and 2014, our Textile Effects segment recorded restructuring, impairment and plant closing and transition costs of \$4 million and \$7 million, respectively. For more information concerning restructuring activities, see "Note 6. Restructuring, Impairment and Plant Closing Costs" to our condensed consolidated financial statements (unaudited).

Pigments and Additives

The increase in revenues in our Pigments and Additives segment for three months ended March 31, 2015 compared to the same period in 2014 was primarily due to the impact of the Rockwood Acquisition. Other than the impact of the Rockwood Acquisition, sales volumes declined as a result of lower end-use demand, especially in the European region. Average selling prices decreased primarily as a result of high titanium dioxide industry inventory levels and the foreign currency exchange impact of a stronger U.S. dollar against major European currencies. The decrease in segment EBITDA was primarily due to lower margins, higher acquisition expenses and integration costs and higher restructuring, impairment and plant closing costs, partially offset by lower selling, general and administrative costs. During the three months ended March 31, 2015 and 2014, our Pigments and Additives segment recorded acquisition expenses and integration costs of \$6 million each. During the three months ended March 31, 2015 and 2014, our Pigments and Additives segment recorded restructuring, impairment and plant closing costs of \$85 million and \$3 million, respectively. For more information concerning restructuring activities, see "Note 6. Restructuring, Impairment and Plant Closing Costs" to our condensed consolidated financial statements (unaudited).

Corporate and other

Corporate and other includes unallocated corporate overhead, unallocated foreign exchange gains and losses, LIFO inventory valuation reserve adjustments, loss on early extinguishment of debt, unallocated restructuring, impairment and plant closing costs, nonoperating income and expense, benzene sales and gains and losses on the disposition of corporate assets. For the three months ended March 31, 2015, EBITDA from Corporate and other for Huntsman Corporation and Huntsman International increased by \$2 million to a loss of \$42 million from a loss of \$44 million for the same period in 2014. The increase in EBITDA from Corporate and other resulted primarily from an increase in LIFO inventory valuation income, substantially offset by an increase in loss from benzene sales.

Discontinued Operations

The operating results of our former polymers, base chemicals and Australian styrenics businesses are classified as discontinued operations, and, accordingly, the revenues of these businesses are excluded from revenues for all periods presented. The EBITDA of these former businesses are included in discontinued operations for all periods presented. The loss from discontinued operations represents the operating results, legal costs, restructuring, impairment and plant closing costs and gain (loss) on disposal with respect to our former businesses.

LIQUIDITY AND CAPITAL RESOURCES

The following is a discussion of our liquidity and capital resources and does not include separate information with respect to Huntsman International in accordance with General Instructions H(1)(a) and (b) of Form 10-Q.

Cash

Net cash provided by (used in) operating activities for the three months ended March 31, 2015 and 2014 was \$34 million and \$(67) million, respectively. The increase in net cash provided by operating activities during the three months ended March 31, 2015 compared with the same period in 2014 was primarily attributable to a \$164 million favorable variance in operating assets and liabilities for the three months ended March 31, 2015 as compared with the same period of 2014, despite an increase of \$90 million in other noncurrent assets, primarily attributable to turnaround and inspection costs, offset in part by a decrease in operating income as described in "—Results of Operations" above.

Net cash used in investing activities for the three months ended March 31, 2015 and 2014 was \$81 million and \$104 million, respectively. During the three months ended March 31, 2015 and 2014, we paid \$149 million and \$107 million, respectively, for capital expenditures. During the three months ended March 31, 2015 and 2014, we made investments in Louisiana Pigment Company, L.P. of \$4 million and \$11 million, respectively, and in our BASF Huntsman Shanghai Isocyanate Investment B.V. joint venture of \$9 million and nil, respectively, and received dividends from Louisiana Pigment Company, L.P. of \$15 million each. During the three months ended March 31, 2015 and 2014, we received \$66 million and nil, respectively, from the termination of cross-currency interest rate contracts.

Net cash provided by (used in) financing activities for the three months ended March 31, 2015 and 2014 was \$189 million and \$(71) million, respectively. The increase in net cash provided by financing activities was primarily due to an increase in proceeds from the issuance of long-term debt during the 2015 period as compared to the 2014. On March 31, 2015, we issued €300 million (approximately \$326 million) aggregate principal amount of 2025 Senior Notes.

Changes in Financial Condition

The following information summarizes our working capital position (dollars in millions):

	March 31, 2015	December 31, 2014	Increase (Decrease)	Percent Change

Total current liabilities	2,474	2,332	142	6%
Working capital	<u>\$ 2,413</u>	<u>\$ 2,707</u>	<u>\$ (294)</u>	(11)%

Our working capital decreased by \$294 million as a result of the net impact of the following significant changes:

- The increase in cash and cash equivalents of \$134 million resulted from the matters identified on our condensed consolidated statements of cash flows (unaudited).
- Accounts and notes receivable decreased by \$39 million mainly due to lower sales in the first quarter of 2015 compared with the prior quarter, primarily due to the appreciation in value of the U.S. dollar.
- Inventories decreased by \$156 million mainly due to lower raw material costs and the appreciation in value of the U.S. dollar.
- Other current assets decreased by \$82 million mainly due to the termination and settlement of certain cross-currency interest rate contracts during the first quarter of 2015 and decreases in income taxes receivable.
- The decrease in accounts payable of \$84 million was primarily due to lower purchases consistent with the lower inventory balances noted above.
- Accrued liabilities decreased by \$34 million due to decreases in taxes other than income, accrued payroll and benefits and accrued rebates, offset in part by an increase in accrued restructuring, impairment and plant closing costs.
- Current portion of debt increased by \$262 million due to the reclassification of our 2021 Senior Subordinated Notes, which were redeemed on April 17, 2015, as current.

DIRECT AND SUBSIDIARY DEBT

Huntsman Corporation's direct debt and guarantee obligations consist of a guarantee of certain indebtedness incurred from time to time to finance certain insurance premiums. Substantially all of our other debt, including the facilities described below, has been incurred by our subsidiaries (primarily Huntsman International). Huntsman Corporation is not a guarantor of such subsidiary debt.

[Table of Contents](#)

Certain of our subsidiaries are designated as nonguarantor subsidiaries and have third-party debt agreements. These debt agreements contain certain restrictions with regard to dividends, distributions, loans or advances. In certain circumstances, the consent of a third party would be required prior to the transfer of any cash or assets from these subsidiaries to us.

Senior Credit Facilities

As of March 31, 2015, our Senior Credit Facilities consisted of our Revolving Facility, our Extended Term Loan B, our Extended Term Loan B—Series 2, our 2014 New Term Loan and our Term Loan C as follows (dollars in millions):

Facility	Committed Amount	Principal Outstanding	Carrying Value	Interest Rate(3)	Maturity
Revolving Facility	\$ 625	\$ —(1)	\$ —(1)	USD LIBOR plus 2.50%	2017
Extended Term Loan B	NA	943	942	USD LIBOR plus 2.50%	2017
Extended Term Loan B—Series 2	NA	335	335	USD LIBOR plus 3.00%	2017
2014 New Term Loan	NA	1,197	1,186	USD LIBOR plus 3.00%(2)	2021
Term Loan C	NA	50	49	USD LIBOR plus 2.25%	2016

- (1) We had no borrowings outstanding under our Revolving Facility; we had approximately \$15 million (U.S. dollar equivalents) of letters of credit and bank guarantees issued and outstanding under our Revolving Facility.
- (2) The 2014 New Term Loan is subject to a 0.75% LIBOR floor.
- (3) The applicable interest rate of the Senior Credit Facilities is subject to certain secured leverage ratio thresholds. As of March 31, 2015, the weighted average interest rate on our outstanding balances under the Senior Credit Facilities was approximately 3.0%.

Our obligations under the Senior Credit Facilities are guaranteed by our Guarantors, and are secured by a first priority lien on substantially all of our domestic property, plant and equipment, the stock of all of our material domestic subsidiaries and certain foreign subsidiaries, and pledges of intercompany notes between certain of our subsidiaries.

A/R Programs

Our A/R Programs are structured so that we transfer certain of our trade receivables to the U.S. SPE and the EU SPE in transactions intended to be true sales or true contributions. The receivables collateralize debt incurred by the U.S. SPE and the EU SPE. Information regarding our A/R Programs as of March 31, 2015 was as follows (monetary amounts in millions):

Facility(5)	Maturity	Maximum Funding Availability(1)	Amount Outstanding	Interest Rate(2)(3)
U.S. A/R Program	March 2018	\$250	\$90(4)	Applicable rate plus 0.95%
EU A/R Program	March 2018	€225 (approximately \$245)	€114 (approximately \$124)	Applicable rate plus 1.10%

- (1) The amount of actual availability under our A/R Programs may be lower based on the level of eligible receivables sold, changes in the credit ratings of our customers, customer concentration levels and certain characteristics of the accounts receivable being transferred, as defined in the applicable agreements.

[Table of Contents](#)

- (2) Each interest rate is defined in the applicable agreements. In addition, the U.S. SPE and the EU SPE are obligated to pay unused commitment fees to the lenders based on the amount of each lender's commitment.
- (3) Applicable rate for our U.S. A/R Program is defined by the lender as either USD LIBOR or CP rate. Applicable rate for our EU A/R Program is either GBP LIBOR, USD LIBOR or EURIBOR.
- (4) As of March 31, 2015, we had approximately \$7 million (U.S. dollar equivalents) of letters of credit issued and outstanding under our U.S. A/R Program.
- (5) During the three months ended March 31, 2015, we entered into amendments to our A/R Programs that, among other things, extend the scheduled commitment termination dates and reduce the applicable borrowing margins.

As of March 31, 2015 and December 31, 2014, \$454 million and \$472 million, respectively, of accounts receivable were pledged as collateral under our A/R Programs.

Notes

As of March 31, 2015, we had outstanding the following notes (monetary amounts in millions):

Notes	Maturity	Interest Rate	Amount Outstanding
2020 Senior Notes	November 2020	4.875%	\$650 (\$647 carrying value)
2021 Senior Notes	April 2021	5.125%	€445 (€449 carrying value (\$489))
2022 Senior Notes	November 2022	5.125%	\$400
2025 Senior Notes	April 2025	4.25%	€300 (\$326)
2021 Senior Subordinated Notes	March 2021	8.625%	\$484 (\$493 carrying value)

On March 31, 2015, Huntsman International issued €300 million (approximately \$326 million) aggregate principal amount of 2025 Senior Notes. Huntsman International applied the net proceeds of this offering to redeem \$289 million of its 2021 Senior Subordinated Notes in April 2015.

The 2025 Senior Notes bear interest at 4.25% per year, payable semi-annually on April 1 and October 1, and are due on April 1, 2025. Huntsman International may redeem the 2025 Senior Notes in whole or in part at any time prior to January 1, 2025 at a price equal to 100% of the principal amount thereof plus a "make-whole" premium and accrued and unpaid interest.

The 2020, 2021, 2022 and 2025 Senior Notes are general unsecured senior obligations of Huntsman International and are guaranteed on a general unsecured senior basis by the Guarantors. The indentures impose certain limitations on the ability of Huntsman International and its subsidiaries to, among other things, incur additional indebtedness secured by any principal properties, incur indebtedness of non-guarantor subsidiaries, enter into sale and leaseback transactions with respect to any principal properties and consolidate or merge with or into any other person or lease, sell or transfer all or substantially all of its properties and assets. Upon the occurrence of certain change of control events, holders of the 2020, 2021, 2022 and 2025 Senior Notes will have the right to require that Huntsman International purchase all or a portion of such holder's notes in cash at a purchase price equal to 101% of the principal amount thereof plus accrued and unpaid interest to the date of repurchase.

Redemption of Notes and Loss on Early Extinguishment of Debt

During the three months ended March 31, 2015, we redeemed or repurchased the following notes (monetary amounts in millions):

<u>Date of Redemption</u>	<u>Notes</u>	<u>Principal Amount of Notes Redeemed</u>	<u>Amount Paid (Excluding Accrued Interest)</u>	<u>Loss on Early Extinguishment of Debt</u>
January 2015	2021 Senior Subordinated Notes	\$ 37	\$ 40	\$ 3

In connection with the redemption of our 2021 Senior Subordinated Notes in April 2015, Huntsman International incurred a \$20 million loss on early extinguishment of debt in the second quarter of 2015. As of March 31, 2015, \$294 million was classified as current portion of debt on our condensed consolidated balance sheets (unaudited).

Variable Interest Entity Debt

As of March 31, 2015, Arabian Amines Company had \$156 million outstanding under its loan commitments and debt financing arrangements. Arabian Amines Company, our consolidated 50%-owned joint venture, is currently not in compliance with payment and other obligations under these loan commitments. We do not guarantee these loan commitments and Arabian Amines Company is not a guarantor of any of our other debt obligations, and the noncompliance with these financial covenants does not affect any of our other debt obligations. On April 29, 2015, Arabian Amines Company obtained a waiver of certain financial covenants from the lender. We are analyzing the impact of this waiver on the balance sheet classification of these loan commitments. As of March 31, 2015, the amounts outstanding under these loan commitments were classified as current on our condensed consolidated balance sheets (unaudited).

Note Payable from Huntsman International to Huntsman Corporation

As of March 31, 2015, we have a loan of \$700 million to our subsidiary, Huntsman International. The Intercompany Note is unsecured and \$100 million of the outstanding amount is classified as current as of March 31, 2015 on our condensed consolidated balance sheets (unaudited). As of March 31, 2015, under the terms of the Intercompany Note, Huntsman International promises to pay us interest on the unpaid principal amount at a rate per annum based on the previous monthly average borrowing rate obtained under our U.S. A/R Program, less 10 basis points (provided that the rate shall not exceed an amount that is 25 basis points less than the monthly average borrowing rate obtained for the U.S. LIBOR-based borrowings under our Revolving Facility).

COMPLIANCE WITH COVENANTS

We believe that we are in compliance with the covenants contained in the agreements governing our material debt instruments, including our Senior Credit Facilities, our U.S. A/R program and our EU A/R Program and our notes. However, Arabian Amines Company, our consolidated 50%-owned joint venture, is currently not in compliance with certain financial covenants contained under its loan commitments. See "Note 7. Debt—Direct and Subsidiary Debt—Variable Interest Entity Debt" to our condensed consolidated financial statements (unaudited).

Our material financing arrangements contain certain covenants with which we must comply. A failure to comply with a covenant could result in a default under a financing arrangement unless we obtained an appropriate waiver or forbearance (as to which we can provide no assurance). A default under these material financing arrangements generally allows debt holders the option to declare the underlying debt obligations immediately due and payable. Furthermore, certain of our material

[Table of Contents](#)

financing arrangements contain cross-default and cross-acceleration provisions under which a failure to comply with the covenants in one financing arrangement may result in an event of default under another financing arrangement.

Our Senior Credit Facilities are subject to the Leverage Covenant which applies only to the Revolving Facility and is calculated at the Huntsman International level. The Leverage Covenant is applicable only if borrowings, letters of credit or guarantees are outstanding under the Revolving Facility (cash collateralized letters of credit or guarantees are not deemed outstanding). The Leverage Covenant is a net senior secured leverage ratio covenant which requires that Huntsman International's ratio of senior secured debt to EBITDA (as defined in the applicable agreement) is not more than 3.75 to 1.

If in the future Huntsman International fails to comply with the Leverage Covenant, then we may not have access to liquidity under our Revolving Facility. If Huntsman International failed to comply with the Leverage Covenant at a time when we had uncollateralized loans or letters of credit outstanding under the Revolving Facility, Huntsman International would be in default under the Senior Credit Facilities, and, unless Huntsman International obtained a waiver or forbearance with respect to such default (as to which we can provide no assurance), Huntsman International could be required to pay off the balance of the Senior Credit Facilities in full, and we may not have further access to such facilities.

The agreements governing our A/R Programs also contain certain receivable performance metrics. Any material failure to meet the applicable A/R Programs' metrics in the future could lead to an early termination event under the A/R Programs, which could require us to cease our use of such facilities, prohibiting us from additional borrowings against our receivables or, at the discretion of the lenders, requiring that we repay the A/R Programs in full. An early termination event under the A/R Programs would also constitute an event of default under our Senior Credit Facilities, which could require us to pay off the balance of the Senior Credit Facilities in full and could result in the loss of our Senior Credit Facilities.

SHORT-TERM AND LONG-TERM LIQUIDITY

We depend upon our cash, credit facilities, A/R Programs and other debt instruments to provide liquidity for our operations and working capital needs. As of March 31, 2015, we had \$1,806 million of combined cash and unused borrowing capacity, consisting of \$1,003 million in cash and restricted cash, \$610 million in availability under our Revolving Facility, and \$193 million in availability under our A/R Programs. Our liquidity can be significantly impacted by various factors. The following matters had, or are expected to have, a significant impact on our liquidity:

- Cash invested in our accounts receivable and inventory, net of accounts payable, decreased by approximately \$3 million for the three months ended March 31, 2015, as reflected in our condensed consolidated statements of cash flows (unaudited). We expect volatility in our working capital components to continue.
- During 2015, we expect to spend approximately \$625 million on capital expenditures, net of reimbursements, including approximately \$100 million combined for our new MDI facility, the completion of the Augusta, Georgia color pigments facility and replacement of Rockwood computer systems. Our future expenditures include certain EHS maintenance and upgrades; periodic maintenance and repairs applicable to major units of manufacturing facilities; expansions of our existing facilities or construction of new facilities; certain cost reduction projects; and certain information technology expenditures. We expect to fund this spending with cash provided by operations.

- During the three months ended March 31, 2015, we made contributions to our pension and postretirement benefit plans of \$33 million. During 2015, we expect to contribute an additional amount of approximately \$66 million to these plans.
- We are also involved in a number of cost reduction programs for which we have established restructuring accruals. As of March 31, 2015, we had \$168 million of accrued restructuring costs from continuing operations, and we expect to incur and pay additional restructuring and plant closing costs of up to approximately \$150 million in 2015.

On December 1, 2014, we announced that we are taking significant action to improve the global competitiveness of our Pigments and Additives segment. As part of a comprehensive restructuring program, we plan to reduce our workforce by approximately 900 positions. Annual cost savings are expected to exceed \$130 million and are expected to be achieved by the middle of 2016. In connection with this restructuring program, we recorded restructuring expense of \$34 million in the three months ended March 31, 2015 related primarily to workforce reductions. We expect to record additional restructuring expense in 2015 as we implement individual employee agreements under our variance voluntary termination plans.

On February 12, 2015, we announced a plan to close the 'black end' manufacturing operations and ancillary activities at our Calais, France site, which will reduce our titanium dioxide capacity by approximately 100 kilotons, or 13% of our European titanium dioxide capacity. In connection with this announcement, we began to accelerate depreciation on the affected assets and recorded incremental accelerated depreciation in the three months ended March 31, 2015 of \$28 million as restructuring, impairment and plant closing costs. In addition, we recorded restructuring expense of \$22 million in the three months ended March 31, 2015 related primarily to workforce reductions. We expect to record additional restructuring expense in 2015 as we conclude negotiations with the works council and implement the reduction in capacity. Annual cost savings are expected to be approximately \$35 million and are expected to be achieved by the middle of 2016. This plan is in addition to that announced on December 1, 2014.

- During the first half of 2015, we will have completed scheduled maintenance at our PO/MTBE facility in Port Neches, Texas with an estimated negative impact to EBITDA of approximately \$95 million. This amount includes lost revenue and unabsorbed fixed costs during the maintenance period. In addition, the associated maintenance costs will be approximately \$90 million, of which approximately \$47 million was paid through March 31, 2015. These maintenance costs will be deferred and amortized over approximately five years until the next scheduled maintenance outage reducing future EBITDA over that period of time.

As of March 31, 2015, we had \$529 million classified as current portion of debt, including \$294 million of our 2021 Senior Subordinated Notes that were redeemed on April 17, 2015, debt at our variable interest entities of \$168 million, a short term borrowing facility in China totaling \$19 million, our scheduled Senior Credit Facilities amortization payments totaling \$26 million and certain other short-term facilities and scheduled amortization payments totaling \$22 million. Although we cannot provide assurances, we intend to renew or extend the majority of these short-term facilities in the current period.

As of March 31, 2015, we had approximately \$660 million of cash and cash equivalents, including restricted cash, held by our foreign subsidiaries, including our VIEs. Additionally, we have material intercompany debt obligations owed to us by our non-U.S. subsidiaries. We intend to use cash held in our foreign subsidiaries to fund our local operations. Nevertheless, we could repatriate cash as dividends or as repayments of intercompany debt. If foreign cash were repatriated as dividends, the dividends could be subject to US federal and state income taxes without any offsetting foreign tax credit relief. At present, we estimate that we will generate sufficient cash in our U.S. operations, together with the payments of intercompany debt if necessary, to meet our cash needs in the U.S and

[Table of Contents](#)

we do not expect to repatriate cash to the U.S. as dividends. Cash held by certain foreign subsidiaries, including our VIEs, may also be subject to legal restrictions, including those arising from the interests of our partners, which could limit the amounts available for repatriation.

RESTRUCTURING, IMPAIRMENT AND PLANT CLOSING COSTS

Our Polyurethanes, Performance Products, Advanced Materials and Textile Effects segments recently completed major cost reduction programs that are expected to reduce costs in these businesses by approximately \$240 million. These cost savings are expected to be achieved through the end of 2015.

Since the Rockwood Acquisition, our Pigments and Additives segment has been involved in a cost reduction program expected to reduce costs by approximately \$140 million and improve its global competitiveness. In addition, we have announced a capacity reduction at our titanium dioxide manufacturing facility in Calais, France expected to generate approximately \$35 million of annual savings. These cost savings are expected to be achieved by the middle of 2016.

For further discussion of these plans and the costs involved, see "Note 6. Restructuring, Impairment and Plant Closing Costs" to our condensed consolidated financial statements (unaudited).

LEGAL PROCEEDINGS

For a discussion of legal proceedings, see "Note 13. Commitments and Contingencies—Legal Matters" and "Note 14. Environmental, Health and Safety Matters" to our condensed consolidated financial statements (unaudited).

ENVIRONMENTAL, HEALTH AND SAFETY MATTERS

For a discussion of environmental, health and safety matters, see "Note 14. Environmental, Health and Safety Matters" to our condensed consolidated financial statements (unaudited).

RECENTLY ISSUED ACCOUNTING PRONOUNCEMENTS

For a discussion of recently issued accounting pronouncements, see "Note 2. Recently Issued Accounting Pronouncements" to our condensed consolidated financial statements (unaudited).

CRITICAL ACCOUNTING POLICIES

Our critical accounting policies are presented in Management's Discussion and Analysis of Financial Condition and Results of Operations included in our Annual Report on Form 10-K for the year ended December 31, 2014.

ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

We are exposed to market risks, such as changes in interest rates, foreign exchange rates and commodity pricing risks. From time to time, we enter into transactions, including transactions involving derivative instruments, to manage certain of these exposures.

All derivatives, whether designated in hedging relationships or not, are recorded on our balance sheet at fair value. If the derivative is designated as a fair value hedge, the changes in the fair value of the derivative and the hedged items are recognized in earnings. If the derivative is designated as a cash flow hedge, changes in the fair value of the derivative are recorded in accumulated other comprehensive loss, to the extent effective, and will be recognized in the income statement when the hedged item affects earnings. To the extent applicable, we perform effectiveness assessments in order to use hedge accounting at each reporting period. For a derivative that does not qualify as a hedge, changes in fair value are recognized in earnings.

We also hedge our net investment in certain European operations. Changes in the fair value of the hedge in the net investment of certain European operations are recorded in accumulated other comprehensive loss.

Our cash flows and earnings are subject to fluctuations due to exchange rate variation. Our revenues and expenses are denominated in various foreign currencies. From time to time, we may enter into foreign currency derivative instruments to minimize the short-term impact of movements in foreign currency rates. Where practicable, we generally net multicurrency cash balances among our subsidiaries to help reduce exposure to foreign currency exchange rates. Certain other exposures may be managed from time to time through financial market transactions, principally through the purchase of spot or forward foreign exchange contracts (generally with maturities of one year or less). We do not hedge our foreign currency exposures in a manner that would eliminate the effect of changes in exchange rates on our cash flows and earnings. As of March 31, 2015, we had approximately \$245 million in notional amount (in U.S. dollar equivalents) outstanding in forward foreign currency contracts.

Huntsman International has entered into several interest rate contracts to hedge the variability caused by monthly changes in cash flow due to associated changes in LIBOR under our Senior Credit Facilities. These swaps are designated as cash flow hedges and the effective portion of the changes in the fair value of the swaps are recorded in other comprehensive (loss) income (dollars in millions):

March 31, 2015					
Notional Value	Effective Date	Maturity	Fixed Rate	Fair Value	
\$ 50	December 2014	April 2017	2.5%	\$2 noncurrent liability	
50	January 2015	April 2017	2.5%	2 noncurrent liability	

Beginning in 2009, Arabian Amines Company entered into a 12-year floating to fixed interest rate contract providing for a receipt of LIBOR interest payments for a fixed payment of 5.02%. In connection with the consolidation of Arabian Amines Company as of July 1, 2010, the interest rate contract is now included in our consolidated results. See "Note 5. Variable Interest Entities" to our condensed consolidated financial statements (unaudited). The notional amount of the swap as of March 31, 2015 was \$26 million, and the interest rate contract is not designated as a cash flow hedge. As of March 31, 2015, the fair value of the swap was \$3 million and was recorded as other current liabilities on our condensed consolidated balance sheets (unaudited). For the three months ended March 31, 2015, we recorded a reduction of interest expense of nil due to changes in fair value of the swap. As of March 31, 2015, Arabian Amines Company was not in compliance with certain financial covenants contained in its loan commitments. For more information, see "Note 7. Debt—Direct and Subsidiary Debt—Variable Interest Entity Debt" to our condensed consolidated financial statements (unaudited).

In November 2014, we entered into two five year cross-currency interest rate contracts and one eight year cross-currency interest rate contract to swap an aggregate notional \$200 million for an aggregate notional €161 million. This swap is designated as a hedge of net investment for financial reporting purposes. Under the cross-currency interest rate contract, we will receive fixed USD payments of \$5 million semiannually on May 15 and November 15 (equivalent to an annual rate of 5.125%) and make interest payments of approximately €3 million (equivalent to an annual rate of approximately 3.6%). As of March 31, 2015, the fair value of this swap was \$33 million and was recorded in noncurrent assets.

On March 17, 2010, we entered into three five year cross-currency interest rate contracts to swap an aggregate notional \$350 million for an aggregate notional €255 million. This swap was designated as a hedge of net investment for financial reporting purposes. During the three months ended March 31, 2015, we terminated these cross-currency interest rate contracts and received \$66 million in payments from the counterparties.

[Table of Contents](#)

We finance certain of our non-U.S. subsidiaries with intercompany loans that are, in many cases, denominated in currencies other than the entities' functional currency. We manage the net foreign currency exposure created by this debt through various means, including cross-currency swaps, the designation of certain intercompany loans as permanent loans because they are not expected to be repaid in the foreseeable future and the designation of certain debt and swaps as net investment hedges.

Foreign currency transaction gains and losses on intercompany loans that are not designated as permanent loans are recorded in earnings. Foreign currency transaction gains and losses on intercompany loans that are designated as permanent loans are recorded in other comprehensive income. From time to time, we review such designation of intercompany loans.

We review our non-U.S. dollar denominated debt and derivative instruments to determine the appropriate amounts designated as hedges. As of March 31, 2015, we have designated approximately €331 million (approximately \$360 million) of euro-denominated debt and cross-currency interest rate contracts as a hedge of our net investment. For the three months ended March 31, 2015, the amount of gain recognized on the hedge of our net investment was \$75 million, and was recorded in other comprehensive (loss) income on our condensed consolidated statements of comprehensive (loss) income (unaudited). As of March 31, 2015, we had approximately €1,334 million (approximately \$1,451 million) in net euro assets.

ITEM 4. CONTROLS AND PROCEDURES

Our management, with the participation of our chief executive officer and chief financial officer, has evaluated the effectiveness of our disclosure controls and procedures (as defined in Rules 13a-15(e) and 15d-15(e) under the Exchange Act) as of March 31, 2015. Based on this evaluation, our chief executive officer and chief financial officer have concluded that, as of March 31, 2015, our disclosure controls and procedures were effective, in that they ensure that information required to be disclosed by us in the reports that we file or submit under the Exchange Act is (1) recorded, processed, summarized and reported within the time periods specified in the Commission's rules and forms, and (2) accumulated and communicated to our management, including our chief executive officer and chief financial officer, as appropriate to allow timely decisions regarding required disclosure.

No changes to our internal control over financial reporting occurred during the quarter ended March 31, 2015 that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting (as defined in Rules 13a-15(f) and 15d-15(f) under the Exchange Act). However, we can only give reasonable assurance that our internal controls over financial reporting will prevent or detect material misstatements on a timely basis. Ineffective internal controls over financial reporting could cause investors to lose confidence in our reported financial information and could result in a lower trading price for our securities.

PART II. OTHER INFORMATION**ITEM 1. LEGAL PROCEEDINGS**

During the three months ended March 31, 2015, there have been no material developments with respect to material legal proceedings referenced in Part I, Item 3 of our Annual Report on Form 10-K for the year ended December 31, 2014.

ITEM 1A. RISK FACTORS

For information regarding risk factors, see "Part I. Item 1A. Risk Factors," in our Annual Report on Form 10-K for the year ended December 31, 2014.
